Re: Application for transfer #80046; Lake Family Ranches, Inc.

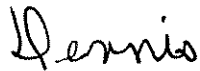

Dear Mr. Peppersack:

I received a copy of Mr. Mecham's letter to you dated June 1, 2015 wherein he made certain comments relevant to the requested transfer of diversion location for water right # 27-73.

Point a. The present diversion point is on federal land (BIA). We believe the proposed diversion point is on our deeded property so this clause should not be necessary.

Point b. This issue was resolved during the adjudication process when water right #27-73 was reduced to just accommodate usage on our deeded property. We will not have sufficient water to apply to federal land so this is a non issue.

Sincerely,

Lake Family Ranches Inc.

Dennis M Lake, President
