Dear Angie:

Please consider this letter as a request to begin the Public Notice for application for permit number 63-34081. Our family has been trying for four long years to find a buyer for our property, which we need to sell to help settle an estate. We finally have an offer, but it has several contingencies, one of the contingencies is to see if any parties object to our request. We have already had to extend the due diligence period twice. We realize the work load you have with limited personnel and don't want to further burden your office. Your approval of starting the Public Notice would save us several months of waiting before our application is reviewed. This matter is really important to our family, and we are deeply concerned that the deal may fall through with more time elapsing.

If you have any questions, please call me at the following number: (208) 863-2230.

Thank you for your help.

P.S. I am a 42 year retired state employee. I have a good feel for how you "keep having to do more with less." Many thanks to Kay Walker for helping me through the application process. She was wonderful to work with.
