This application proposes the diversion and use of water tributary to a federally designated Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because it is for domestic purposes.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the rights, please see www.idwr.idaho.gov/WaterManagement/WaterRights/#NewListings. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise ID 83705 together with a protest fee of \$25.00 for each application on or before 7-20-15. The protestant must also send a copy of the protest to the applicant.

RE: Application for Permit No. 77-14358

Dear Ms. Thiel:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendation(s) from the Planning Bureau regarding the above referenced water right application(s). Copy(s) of the application(s) are enclosed with this email for your reference. Please review the application(s), complete the enclosed recommendation form, and submit your reply, if any, to this office by the protest deadline of July 20, 2015.

If the Planning Bureau desires to formally protest approval of this application, you may do so by filing a written protest along with a \$25.00 filing fee for each protested application by the protest deadline.

IDWR will assume your agency does not object to this application if a timely response is not received. Please contact me if you have any questions regarding the application. Thank you for your help.

RE: Application for Permit 77-14358

Dear Mr. Robinson:

We are in the process of initial review of your application and find we need to have you make some changes to the point of diversion and place of use descriptions. The source of water under this application is a spring. For springs we require that the point of diversion be listed to a 10-acre tract description. It appears to me that the spring you will be using is located within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 33, Twp. 21N, Rge. 9E. However, you need to verify that this location is correct and put it on the application form. I have attached a DRG Aerial Photo that shows the location of your mining claim. Please mark the location of the point of diversion on this map and then add the 10 acre tract description to Item 3 on the form.

We also notice that the place of use you have listed is not correct. The "Camp Bird No. 1 Lode" map that you attached to your application happens to show up on our DRG for this area. It looks to me like your place of use will be in the same 40 acre tract as your point of diversion, i.e. SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 33, Twp. 21N, Rge. 9E. If this is correct, please change the form to the correct place of use. I have used a flag to indicate the correct box for you to place your "D" in. Please line through the "D" that you have indicated as that area is south and west of where your cabin is located.

We would also like you to complete your description of diverting works under item 6a.

I have enclosed a copy of your application for your use in making the above changes. Please date and initial all changes that you make to the form. Thank you for your attention to this matter.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
