WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights or temporary exchanges of water, as provided in section 42-240, Idaho Code, when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, on June 19, 2015, Jerry Cenarrusa ("applicant") submitted the attached Temporary Change Application ("application") to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions; and

WHEREAS, the applicant assumes all risk and is the responsible party if diversion and use of water under the temporary change approval causes injury to other water rights or constitutes an enlargement in use of the original right;

ORDER

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of right 37-2513 bearing a priority date of 8/22/1950, is authorized only at the point of diversion described on the application or as otherwise approved in this order.
2. Use of right 37-2513 is limited to irrigation of no more than 165 acres.
3. Use of water for the remainder of the irrigation season is limited to only the place of use and point of diversion identified on this application.

4. This temporary change approval does not authorize construction of a new well.
5. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. To prevent injury to other water rights the watermaster of Water District No. 130 is authorized to administer the temporary change approval.
10. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under right 37-2513. The right holder shall limit the diversion of ground water under right 37-2513 to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
11. This temporary change approval expires on October 31, 2015 unless rescinded or extended by the director. Thereafter, the water rights shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.
