CONDITIONS APPLICABLE TO ALL LEASED WATER RIGHTS

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) leased to the bank are subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right is regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 34.
13. When combined with all other rights, the leased rights shall provide not more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
14. Un-leased portions of rights 34-7179, 34-2330B, 34-7080B, 34-7121B, 34-7121A, 34-7092, 34-7077, 34-12376, 34-13840, 34-13842 are limited to irrigation of a combined total of 1,847.3 acres in a single irrigation season, a total combined diversion rate of 35.25 cfs, and a total combined annual diversion volume of 6,596.4 af.
15. The un-leased portions of rights 34-13659 and 34-13661 are limited to irrigation of a combined total of 37.4 acres in a single irrigation season, a total combined volume of 130.9.

16. The un-leased portion of rights 34-618 and the portion of ground water right 34-7179 associated with 34-618, when combined, shall not exceed a total annual maximum diversion volume of 423.1 af at the field headgate.
17. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
18. Rights 34-618, 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-7179, 34-12376, 34-13659, 34-13661, 34-13840, and 34-13842 are delivered through the Moore Diversion and/or the Timberdome Canal.
19. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the land authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
20. Should all or any portion of water right nos. 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-12376, 34-7179, 34-13840, and 34-13842 ever be curtailed as a result of a delivery call, the irrigated place of use for water right nos. 34-2330B, 34-7077, 34-7080B, 34-7092, 34-7121A, 34-7121B, 34-12376, 34-13840, 34-13842 (all describing a place of use of 258.6 acres) and water right no. 34-7179 (276.7 acres) shall be reduced by the number of irrigated acres authorized to be irrigated by the individual water right that is curtailed.

CONDITIONS APPLICABLE TO RIGHT(S) 34-618

21. The of use for irrigation described above may be extended in seasons of unusual period characteristics to a beginning date of 04/20 and an ending date of 10/31 at the discretion of the Director of the Idaho Department of Water Resources.

CONDITIONS APPLICABLE TO RIGHT(S) 34-7092

22. The period of use for the irrigation described in this approval may be extended to a beginning date of 4/1 and an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/15 and after 10/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 7/15/2002.
