WATER RIGHT NO. 71-10919
As Modified by Transfer No. 79715

CONDITIONS OF APPROVAL

1. Irrigation use under this right shall not exceed a total diversion rate of 0.24 cfs without prior approval of the Department.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
3. This right is limited to the irrigation of 11.9 acres within the place of use described above in a single irrigation season.
4. This right is limited to the irrigation of a specific 11.9 acres within the 33.6 acre place of use authorized by this right in a single irrigation season. The specific 11.9 acres to be irrigated by the right holder are shown in the electronic shape file associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 11.9 acres to be irrigated within the 33.6 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
5. Right 71-10919 authorizes the diversion of an annual total of 0.7 af to be used for aesthetic storage and recreation storage uses for the replacement of losses caused by evaporation from the ponds authorized under Right 71-10921.
6. The right holder shall install and maintain an impermeable liner in the pond(s) associated with this right to eliminate seepage losses.
7. The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
8. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 71.
9. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
10. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
11. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
12. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 736-3033.

Sincerely,

A handwritten signature in black ink, appearing to read "Allen Merritt", written in a cursive style.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Hi Corey,

John Miller emailed me at about 12:30 pm this afternoon. He is playing with the irrigation shapes slightly, but hopefully we will get something to you by next week.

Hi Corey,

I am waiting for our client to confirm the irrigation map prior to sending it to you, so you might not get it today. He usually is quick on his turn around, but I haven't heard back from him today.

Just wanted to let you know,

We usually just send requests for comments to a particular IDF&G regional office, in the Stanley area it would be the Salmon Regional office. I asked Denise this morning, and she indicated occasionally she will send a request specifically to Tom Bassista at the IDF&G office in Idaho Falls. She indicated very rarely do we ever get responses back from the IDF&G.

Thanks for your email. I didn't realize that we had not submitted that to you. I will send you a "206 map" tomorrow.

Do you have the name of the Idaho Fish and Game individual that reviews transfers in the Stanley area? He called me last week, but I never caught his name.

I had this inquiry from a guy with the USFS regarding the Ketchum Long Island transfer. Did you ever get the "206 map" put together for this transfer? I believe I requested it via a phone call and an e-mail to you on December 18th.

Mark,

You are correct that the 71-10919 conditions were not consistent with regards to the pond vs. ponds issue. This was probably my mistake back in 2008 or 2009 when the original transfer approval and conditions were drafted. At the time, the number of ponds was not an issue with IDWR, as long as the total surface area did not exceed 1.5 acres. The total amount of surface area of pond(s) factors in the evaporative loss estimates, not necessarily the total number of ponds. If the pending transfer involving right 71-10919 is approved, the condition will refer to "ponds".

As of today, we have yet to receive a "206 map" from Brockway Engineering. The purpose of the "206 map" is to show where the 11.9 acres are located within the 33.6 acre place of use (yellow outlined area on the map that was included with the application).

The current transfer addresses right 71-10919 and the changes to its volume. If the transfer is approved, then IDWR will have to issue a corrected license of 71-10921 to change its currently licensed volume.

If you want to discuss further, you are more than welcome to give me a call (208)736-3033.

Hey Corey,

The notice of the possible transfer (79715) requested by Ketchum Long Island LLC has me again attempting to comprehend the nature of the use and associated water rights. Makes my head hurt, but I think I have most of it again. Your online system is very helpful. I do have a couple of quick questions for clarifications that I cannot find/determine in the record:

The initial application for 71-10921 in 2007 referred to "ponds", yet, for whatever reason, the approved transfer for 71-10919 in 2009 quite specifically authorized just "one (1) pond". But the December license for 71-10919 is back to "pond(s)". As you know, 2 ponds were constructed with a combined surface area considerably less than initially proposed. So was the "(1)" pond stipulation of the initial authorization considered a minor point -- consistent with the "conditions of approval"? The record appears silent.

On December 18 you reminded Mr. Powell of the need for a "206 map" that would relate the exact location of the intended 11.9 irrigated acres. I can't find the corresponding map in the record. Could you please point me to it.

Are the changes to the storage volumes you outlined in a Dec 17, 2014 email to Pam Skaggs incorporated in the current transfer request, or are additional corrections yet anticipated at a later date?

Thanks, - Mark

**NOTICE OF PROPOSED CHANGE
OF WATER RIGHT
TRANSFER NO. 79715**

KETCHUM LONG ISLAND LLC, PO BOX 2238, KETCHUM, ID 83340, has filed Application No. 79715 for changes to the following water rights within BLAINE County(s): Right No(s). 71-10919. The purpose of the transfer is to change a portion of the above rights as follows: Application proposes converting a 0.13 cfs & 1.1 acre-foot portion of a Salmon River water right from recreation/aesthetic storage use(s) to irrigation use for the irrigation of 0.94 acres. The property involved with the transfer is located approximately 18.7 miles south and 6.3 miles east of the Highway 21 and Highway 75 intersection in Stanley. A portion of the right was converted from irrigation to recreation/aesthetic storage use(s) to cover evaporative losses associated with a proposed pond project via an approved transfer in 2009. The ponds were subsequently constructed smaller than originally proposed resulting in an excess amount of recreation/aesthetic storage use(s) which are now being proposed to be converted back to the original irrigation use.

MEMORANDUM

January 5, 2015

I received a phone call today from the water master of 71 – Jan Skrukrud. She was responding to e-mails that I recently sent; regarding correspondence that has been returned to the department by the Post Office. "Temporarily Away"

She indicated that she has received the e-mails and is in fact in Nevada for the winter. She also provided a temporary address, in order for us to send hard copies of any necessary correspondence.

** Jan was also calling to provide necessary water master comments that the department recently requested for transfer 79678 (Browning); and transfer 79715 (Ketchum Long Island LLC). She has no comments / no issues with either of these transfers being approved, etc.; as long as measurement devices are installed.

Copy for: 79768 (Browning)
