MEMORANDUM

Date: June 5, 2015
To: Transfer 80137 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Application proposes adding a new well to be drilled as an authorized point of diversion for an irrigation groundwater right appurtenant to a farm located approximately 17.75 – 19.5 miles north and 7.9 – 9.9 miles east of Malta. Three existing irrigation wells and the new well to be drilled (all located on the farm) will be utilized to divert up to 17.02 cfs for the irrigation of 1437.0 acres on the farm. Note that a similar transfer, # 79877, was approved in April of 2015, but apparently the new well proposed by transfer # 79877 turned out to be a dry hole. This transfer proposes drilling another new well, to replace the well proposed by transfer # 79877, at another location on the farm. Also note that the farm has been in CRP since the late 1980s (see 3/2/2015 e-mail from Cassia County FSA in file). The farm is located just north of the Raft River Critical Groundwater Area and just south of the ESPA. Due to the farm coming out of a lengthy period of CRP enrollment and the fact that a new well will be drilled on the farm, closer to wells on neighboring properties, it is recommended that the transfer be advertised. The farm is not located within a water district so no water master comments are required.

- **Authority to File:**
The application is filed in the name of Evard LLC, the current recorded owner of the right involved with the transfer. IDSOS information indicates that Reed Gibby can sign on behalf of the applicant.
- **Water Right Validity:**
The right involved with the transfer was decreed in the SRBA in 2002 and was involved in an approved transfer in 2002 and in April of 2015. The farm has been in CRP since the late 1980s (see 3/2/2015 e-mail from Cassia County FSA in file).
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated. The application will be subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

SUBJECT: Filing Fee

The filing fee, \$1860.00, for this transfer is based on the total amount of water being transferred, 17.02 cfs. The transfer fee schedule for a transfer involving 17.01 – 18.00 cfs indicates that the filing fee is \$1860.00.
