Good Morning Robert and Kaye Bradley,

I am preparing your application for advertising and just need one more piece of information.

The proposed irrigation area is in water basin 63 which requires applicants to describe the water bearing zone for their wells. This is not on the original application, but is important to know for advertising purposes.

My review of your well log for D0064643 leads me to believe that your water bearing zone would be between 242 ft, where water was first encountered, and 346 ft, the depth of the well. Please let me know if you agree with my findings or if you have additional information. Please respond within thirty (30) days.

Sincerely,

Rachel Sommer

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on March 30, 2015. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- Period of Use was incomplete- please complete section 4 to include the irrigation season of use. For your area, this period is March 1st through November 15th.
- The Description of Other Water Rights was incomplete- write whether or not there are any other water rights or surface irrigation shares on the proposed place of use and what they are.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Western Region Water Rights Staff
