Re: Water Right 75-7559

Dear Right Holder:

Through a separate review of other rights the Department of Water Resources has identified a discrepancy in the public land survey (PLS) legal descriptions of the point of diversion and place of use of your licensed Right 75-7559. It appears that the township of both PLS descriptions identify the incorrect township (T).

The current PLS description and authorized location of the point of diversion is in **Lot 7** (SENE), Section 18, **T21N**, R22E, south of Salmon, while the apparent correct description of **Lot 6** (SENE), Section 18, **T22N**, R22E describes the location of the subdivision in Carmen as described on your Salmon River irrigation Right 75-10519. See map attachment that illustrates the two different locations. The place of use also identifies T21N instead of T22N. I have also enclosed water right proof reports of Rights 75-7559 and 75-10519 for reference.

An Application for Transfer of a Water Right (transfer) is the method available for you to request a correction of the legal descriptions of the point of diversion and place of use. I have enclosed a draft transfer application, a blank transfer application form, and transfer application instructions for your review and consideration. The draft transfer place of use is derived from the place of use shown on the application map matching current representation of Right 75-10519 irrigation place of use. If this is not correct for the domestic use under Right 75-7559, you may want to complete the blank application instead, listing more accurate locations of domestic use. The license notes use in Lots 1-30 of the subdivision.

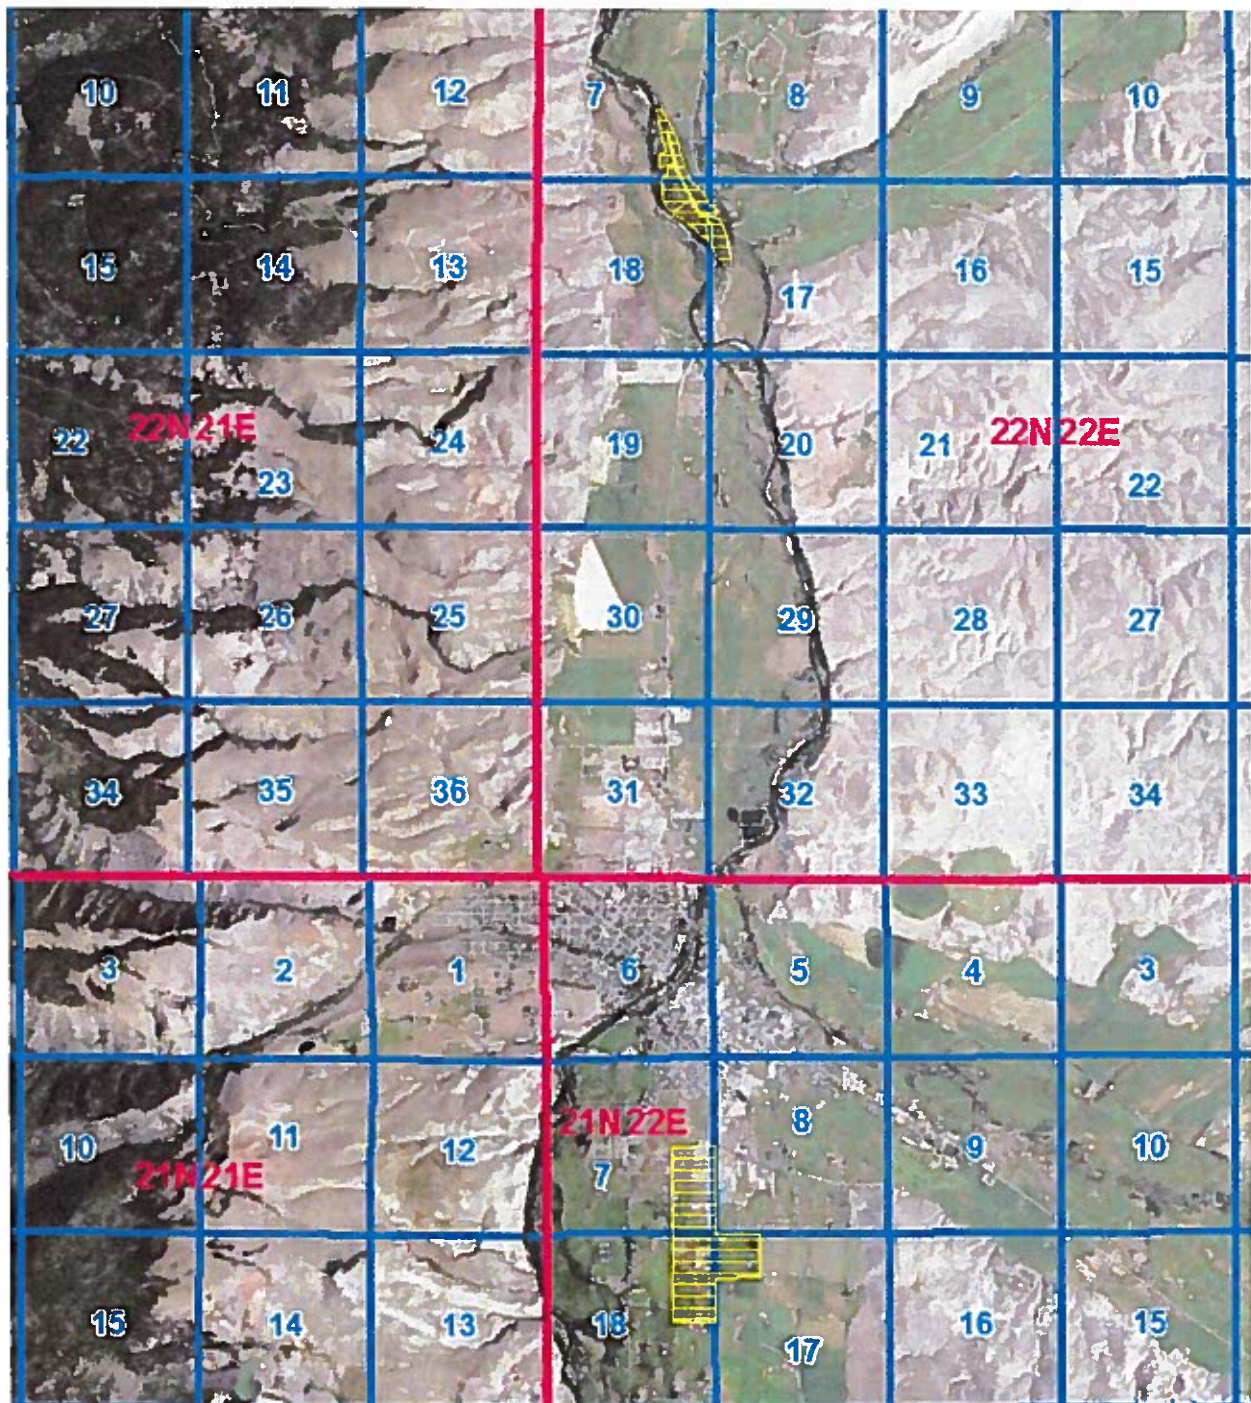

Please submit a completed transfer application and associated fee to this office for processing. The draft transfer identification number is 80119 and will be assigned to whichever application you choose to submit. Please contact me at (208) 287-4951 if you have any questions about this matter.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Skaggs".

Pamela Skaggs
Water Right Supervisor

Pleasant Meadows Water Co
Water Right 75-7599
06-05-2015 Letter

Current place of use general representation of 74-7559 based on **T21N, R22E** description is the yellow shape at the bottom of this map. The yellow shape at the top of the map represents Right 75-10519 in **T22N, R22E**.
