RE: APPLICATION(S) TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

On April 1, 2015, the Department of Water Resources (Department) sent you a letter requesting additional information in connection with your Water Supply Bank (Bank) rental application. To date the requested information has not been received.

This letter is notice that the attached application for rental of water is denied for the following reasons:

- Authority to apply rental water from the proposed place of use and point of diversion was not submitted(questions 3E and J of the rental application)
- Water rights 36-2130C, 36-7850C, and 36-8106C are not leased in the Bank and are not available for rent

Any use associated with your proposed rental request is considered unauthorized and, if occurring, will be subject to any necessary enforcement action.

If you wish to rent water in the future with a new proposal, please reapply using new forms from the Department's website at www.idwr.idaho.gov. If you choose to submit a new rental application for the 2015 season, note that the latest possible start date (item 3C of the rental application) cannot be in the past and the date must be for a future date that is at least a month in the future to allow for processing time.

If you have any questions regarding this matter, please contact me at (208) 287-4944.

Sincerely,

Cherie Palmer
Water Rights Supervisor

Enclosure: Rental Application

c: Zach Latham-Brockway Engineering

STATE OF IDAHO
WATER RESOURCE BOARD

RECEIVED

MAR 27 2015

DEPARTMENT OF
WATER RESOURCES

APPLICATION TO RENT WATER FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: GRANT 4-D FARMS

Is this application being submitted with a lease application as a lease/rental package?

Yes ☒ No ☐

An *Application to Rent Water from the Board's Water Supply Bank* must be completed in accordance with the minimum requirement checklist below to be acceptable for processing by the Idaho Department of Water Resources (IDWR). This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Applications to rent water should be submitted well in advance of the desired start date for the use of water. Rental applications may be submitted as early as November 1 of the year prior to the intended use of rental water. Rental applications submitted more than one year in advance of the proposed start date for water use will not be accepted and will be returned to applicants. Rental applications will not be processed if they are received after the end of the rental season of use.

One rental application per beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources. For multiple beneficial uses of water, individual rental requests should be submitted for each unique beneficial use of water.

For additional instructions on completing a rental application, visit the Department's website at www.idwr.idaho.gov.

Checked All Items as Either Attached (Yes) or Not Applicable (N/A)

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant GRANT 4-D FARMS

Mailing Address 707 E 600 N Rupert, ID 83350

Email Address _____ Phone Number 208-531-5149

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☒ No ☐

If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Zach Latham Professional Title Hydrologist

Organization Brockway Engineering PLLC Relationship to Applicant Consultant

Mailing Address 2016 Washington St. N Suite #4 Twin Falls, ID 83301

Email Address zach.latham@brockwayeng.com Phone Number 208-736-8543

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use, and water diversion, delivery and distribution systems. Make sure the place of use is outlined with an obvious, bolded line. For irrigation purposes, note that the place of use outlined on your map cannot exceed the number of acres you are proposing to rent. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe the purpose of your rental request. Include any anticipated rates of water application, water use practices or number of stock (if any). If the proposed use is not for irrigation, please provide a detailed description of the proposed use and how you determined the amount of rental water required. Attach additional sheets if required and label it **Attachment 3A**:
Irrigation use.

B. Enter the desired and/or minimum necessary rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Acres (if applicable) (Acre)
0.95 CFS	212 AF	0.95 CFS	212 AF	53.0 AC

Sometimes water rights available for rent provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. Enter the proposed start date and latest possible start date for using rental water. Also provide the number of years you would like to rent water:

Proposed Start Date (month/day/year)	Latest Possible Start (month/day/year)	* Proposed Rental Duration (Max 5 Years)	** For multi-year rentals, indicate whether you desire to rent water for remaining years if a rental request cannot be approved for the first year?	
3/15/15	4/1/15	5	☒ Yes , approve rental for all remaining future years.	☐ No , return rental request if first year is unapprovable.

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Subject to the availability of rentable water. A multi-year rental that cannot begin during the first year requested may be approved for some or all remaining years, depending on availability. Rental requests will be returned if no water is available to rent in the first and/or subsequent years of the rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Refer to the map you created in item 2 and specify the location of the point(s) of diversion (POD) from which rental water is proposed to be diverted:

Water Source	TWP	RGE	SEC	¼	¼	¼	County	Other water rights for the same purpose diverted from this POD
Ground Water	8S	25E	1		NE	SE	MINIDOKA	36-2101, 36-2261, 36-2560 etc.
Ground Water	8S	26E	6	NW	NW	NE	MINIDOKA	36-2101, 36-2261, 36-2560 etc.

The entry in this grid must match the map from item 2 on the application.

- E. Do you own and/or possess the authority to divert water from the above POD(s)? Yes ☐ No ☒
If no, provide documentation from the owner/operator confirming your authorization to use the POD(s) and label it **Attachment 3E**.

- F. Do any POD(s) identified in Question 3D divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- G. Has water modeling been provided with your rental request? Yes ☒ No ☐

If yes, include as **Attachment 3G**. Otherwise please explain why modeling was not provided:
Please see attached ESPA model results, no mitigation required.

Rental applications that require modeling will be returned if modeling is not provided.

- H. Specify the proposed beneficial use: ☒ Irrigation ☐ Commercial ☐ Industrial ☐ Municipal
☐ Groundwater Recharge ☐ Mining ☐ Stockwater ☐ Other: _____

- I. Refer to the map you created in item 2 and specify below the places you propose to use water. If for irrigation, specify the number of acres to be irrigated per ¼ ¼ tract. Otherwise indicate usage by marking the ¼ ¼ tracts with the first letter of your proposed use identified above:

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
8S	25E	1		23	23											7			53
The entry in this grid must match the map from item 2 on the application.																			Total Acres (for irrigation)
																			53

- J. For irrigation uses, do you propose a water diversion rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, explain the justification for this rate of flow and attach any supporting documents as **Attachment 3J**:

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☐ No ☒
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. Describe your water distribution system and how water will be delivered from the POD(s) to the proposed POU(s):
Water will be diverted through existing wells and delivered to POU via buried main lines.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- M. List all other water rights and sources of water at the rental place of use for the same purpose and explain why additional water is required. Include privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company, or any other water deliver entity:
36-2101, 36-2261, 36-2560, 36-2130D, 36-7850D, 36-8106D.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

- A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the water rights you are requesting to rent. Otherwise continue to Section 5 of this application form.

Please note: Diversion rates and volumes to be rented from a leased water right must be proportionate to the per acre diversion rates and per acre volume limits of the water right leased to the Bank. Applicants should query a water right's rental availability by reviewing active lease and rental documents, searchable via [IDWR's website](#), to ensure all elements of a water right remain available in sufficient quantity to satisfy a rental request.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany the rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.**

For leased rights with combined limits, applicants should request to rent against the combined limit diversion rate, volume or acre limits.

Elements of Water Rights Leased to the Bank (Contract Details)								Rental Request		
Water Right Number	Nature of Use	Water Source	Rate (CFS)	Volume (AF)	Acres (AC)	Start (year)	End (year)	Rate (CFS)	Vol. (AF)	Acres (AC)
36-2130C	Irrigation	Ground Water	0.40	86	21.5	Indef.	Indef.	0.40	86	21.5
36-2684	Irrigation	Ground Water	0.37	87.2	21.8	2015	2019	0.37	87.2	21.8
36-7850C	Irrigation	Ground Water	0.04	8.6	2.2	Indef.	Indef.	0.04	8.6	2.2
36-8106C	Irrigation	Ground Water	0.14	30.2	7.5	Indef.	Indef.	0.14	30.2	7.5
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre that have been leased to the Water Supply Bank								TOTAL	0.95 CFS	212.0 AF
										53.0 AC

Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

- B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:
N/A.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- C. Does your rental request propose to change the nature of use for any water right(s) being requested? Yes ☐ No ☒
If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented, as well as the new consumptive use amount for your proposed beneficial use. Attach a separate page if space is insufficient and label it **Attachment 4C**:
N/A.

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:
Previous lease/rental applications for the proposed irrigation of the same 53 acres using the same portions of the same water rights listed above have been approved in 2004, 2008, 2009.
- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe: N/A.
- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.
N/A.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws.

Palmer, Cherie

From: Palmer, Cherie
Sent: Thursday, May 07, 2015 5:24 PM
To: 'Zach Latham'
Subject: Grant Leases 36-2130C, 36-7850C, and 36-8106C

Zach,

Per our conversation today the Grants are going to be submitting a signed page that amends their lease application for 36-2684. In addition to that, the Department also needs **new lease applications for water rights 36-2130C, 36-7850C, and 36-8106C** since the lease contracts do not reflect what is being idled. It appears that the Grants intend to use 8 acres under those water right so it is imperative new leases are issued prior to approving a rental. In the new applications please submit a release request on the existing leases so we can move forward with the new lease contracts.

It also looks like the latest possible start date for Grand 4D Farms was April 1 on the rental application. This date has now passed. If your client would like to amend that date please let me know right away. The last deficiency with the rental application concerns the proposed place of use. It does not appear the rental applicant owns that land and must submit authorizations in order to acquire a rental on land owned by another entity.

Please submit all the required pieces within 7 days otherwise the rental and lease applications will be returned and no fees will be refunded. Note that the rental application has not been placed in the processing queue due to the deficiencies outlined in my April 1 letter. Once all the pieces are submitted, I will be able to place this application in the processing queue.

Let me know if you have any questions.

Cherie

Zach,

Thanks for email. Can you please send these documents to IDWR in the mail? Also, you were going to get signatures from the lessors in order to make the change to the lease application, right?

Cherie

From: Zach Latham [<mailto:zach.latham@brockwayeng.com>]
Sent: Friday, April 24, 2015 9:26 AM
To: Palmer, Cherie
Subject: RE: Deficiency Letter Regarding the Leases 2.docx

Cherie-

Please see the attached amended materials which includes the amended lease for 36-2684 which increases the proposed lease acres from 21.8 to 45. This was done in order to meet the rental requirement of 53 acres at the rental POU due to only 8 acres being available under 36-2130C, 36-7850C and 36-8106C. Also included is an updated map and modeling input/output which shows no mitigation is required.

Please let me know if we need anything further in order to process the lease/rental request. Thanks for your time.

Subject: RE: Deficiency Letter Regarding the Leases 2.docx

Zach,

Please submit an amended lease map and an amended Attachment 2 to reflect the new number of acres that will be leased under 36-2684.

As for the existing lease that needs corrected, please submit an application for each water right. Since the water rights are stacked, the fee will be \$500. In your cover letter explain that the new application is meant to supercede the existing lease.

Lastly, for the rental, please send in corrected modeling that reflects the changes discussed in your email.

Thanks for your prompt attention to this matter and we'll be on the lookout for the new paperwork.

Subject: RE: Deficiency Letter Regarding the Leases 2.docx

Cherie-

I just got off the phone with Duane and we have a plan to lease out more of 36-2684 in order to get to 23.8 acres. He also wants to use the 8 remaining acres for rental that you named in your letter to get up to 53 total as identified under the rental request.

How should we amend the lease for 36-2684 to increase the acres, should we submit a new amended lease or an email request to up the acres along with a new map or?

Duane wants me to file a new lease for the other 3 WR's to accurately describe what is being irrigated (282 acres) and the remaining 8 acres to be leased as he agrees with your delineation. I will prepare this amended lease next week.

Thank you.

RE: Lease Review and Rental Application of Water Rights 36-2684, 36-2130C, 36-7850C, and 36-8106C

Dear Lessor/Applicant:

The Department of Water Resources (Department) is in receipt of your Water Supply Bank (Bank) Application to Rent Water. The Department also received your Bank Application to partially lease water right 36-2684 into the Bank.

The Department will move forward with the lease application in the near future.

The rental application cannot be processed at this time, however. The rental application proposes to use 31.2 acres under already leased water rights 36-2130C, 36-7850C, and 36-8106C and 21.8 acres will be rented under 36-2684 for a total of 53 acres of irrigation.

Water rights 36-2130C, 36-7850C, and 36-8106C authorize the irrigation of 290 acres. However, since 2004, these water rights could only provide the irrigation of 258.8 acres because 31.2 acres have been leased into the Bank.

To ensure that enlargement would not occur under your proposed rental, the Department pulled aerial imagery for 2013 and 2014 in order to confirm 31.2 acres have been idled. The Department concluded that 282 acres have been irrigated at the place of use for the rights involved in the lease which means that 8 acres is what is available for rental. This also means that you are out of compliance with your lease. I have enclosed a copy of the maps that helped make the determination in irrigated acres and a copy of your lease.

Before the Department can commit water rights 36-2130C, 36-7850C, and 36-8106C in a rental, the lease must be corrected to reflect what is actually occurring on the ground. Please submit new lease applications that correctly describe the land to remain idled. Note that the Department may rescind the lease of water rights 36-2130C, 36-7850C, and 36-8106C if new lease applications aren't received to supersede the existing lease.

Page 2
April 1, 2015

Because your rental application cannot be filled with the proposed water rights, please find different water rights to make up the difference and submit new Eastern Snake Plain Aquifer ground water modeling.

There is one last deficiency with your rental application the needs addressed. Per your application and county records, you do not own the proposed rental place of use. Question 3E and 3K of the rental application addresses ownership of the proposed place of use and point of diversion. Because you said no to both questions, please submit documentation from the land owner confirming your authorization to use the place of use and point of diversion.

Your rental application states that the proposed start date for your rental is 3/15/2015 with the latest start date of 4/1/2015. The Department did not receive your application until 3/27/2015. If you are irrigating as proposed under your rental application you must stop. **You are not authorized to irrigate as you propose in your rental application until you have an executed agreement in place.** Furthermore, a rental agreement is not imminent and your rental application could be denied.

For future rental requests, the Department asks that you submit any future rental application **many months** in advance of the start date of your proposed rental. This allows the Department time to process your request. Any diversion of water prior to receiving an executed rental agreement is cause for a notice of violation.

The Department will place your rental application on hold while you work to correct your application and submit new lease applications. While on hold, your application will not be placed in the processing queue. If the required information is not received within 14 days, your application will be denied.

You may contact me at (208) 287-4944 if you have any questions regarding this matter.

Sincerely,

Cherie Palmer

Re: Water Supply Bank Lease; 36-2684 on behalf of Laurel A. and Douglas E. Grant Jr. and Rental; 36-2130C, 36-2684, 36-7850C and 36-8106C on behalf of Grant 4-D Farms.

Dear Cherie,

On behalf of Laurel A. and Douglas E. Grant Jr., Brockway Engineering is submitting a water supply bank lease application to lease 36-2684 to the Water Supply Bank through 2019. Also attached are four WSB rental applications to rent portions of 36-2130C, 36-2684, 36-7850C and 36-8106C on behalf of Grant 4-D Farms. Grant 4-D Farms has previously rented portions of all of the above listed water rights for use on their property in T.8S R.25E Section 7. ESPA modeling results (included) indicate no need for mitigation in association with the enclosed rental request.

A check for \$250.00 has been provided for the lease fee for 36-2684. Please copy our office on all correspondence regarding these water supply bank lease and rental applications. Thank you for your assistance and if you have questions or comments, please don't hesitate to call.

Regards,

Zach Latham, M.S., Hydrologist
