RE: Change of Ownership for Water Right No(s). 74-1780A & 74-14689

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right(s) to you. The department has modified its records to reflect the change in ownership and has enclosed computer-generated reports for your records.

During our review the department found that there is a possible error in the Place of Use of water right 74-14689. It appears the place of use should be in Government Lot 6 NWN Section 32 Township 18 North Range 24 East, however, the water right shows the place of use listed as the NWNW Section 32 Township 18 North Range 24 East. In order for the department to correct this error you would be required to file an Application for Transfer.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been deliberately abandoned or forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Also, please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Jonie Barg

The purpose of the transfer is to change a portion of the above rights as follows:

The applicant proposes to correct the legal description to the existing location of the ground water point of diversion in Lot 6 (NWNE), and the domestic place of use in Lot 6 (NWNE) and Lot 10 (NENW), Sec 32, T18N, R24E.

Re: Legal Notice Remarks

The applicant proposes to correct the legal description to the existing location of the ground water point of diversion in Lot 6 (NWNE), and the domestic place of use in Lot 6 (NWNE) and Lot 10 (NENW), Sec 32, T18N, R24E.

From: Pam Skaggs *CS*
Re: Review & Evaluation of Sufficiency of Information

This transfer is proposed to correct the water right record. The public land survey (PLS) of this area includes multiple government lots, split and shifted quarter-quarters. The PLS legal descriptions will be corrected to the actual government lots and related quarter-quarters of land where the home is located. The applicants provided specific amendment to the application by letter received 05-26-2015 to clarify the point of diversion and place of use descriptions.

Authority to File: Applicants are the current owners of record for Right 74-14689 per ownership change processed 08-13-2014. Region staff noted that the place of use description appeared to be incorrect, but the parcel number referenced and the ownership chain clearly is related to the applicant's property. Lemhi County Assessor confirmed the old PIN number referenced on the right is related to the Frahme's parcel with a new PIN number. (The old PIN number listed in the database record dropped the 3 from Section 32 to complete the PIN number according to the assessor's office as RP 18N24E322401 or TRS+4 digit number.)

Water Right Validity: A partial decree was issued in the Snake River Basin Adjudication for this right on 09-08-2000. Tax lot information notes a home was built in 1988. A home and irrigation of approximately 1/2 acre around the home is clearly visible in the 2013 imagery.

Injury to Other Water Rights: There will be no injury to other rights since this transfer does not propose to physically move the well or the place of use. This transfer is to correct the right to reflect actual legal description associated with existing use.

Enlargement of Use: No change to existing domestic use for one home.

Local Public interest: No concerns since the county assessor's office confirmed the location of the claimed PIN number. No effect or issues to others found. Application will be advertised to allow for any local comments.

Beneficial Use/Conservation of Water Resources: No concerns through approval of this transfer.

Effect on Economy the Local Area: No effects.

Effect on Agricultural Base of the Local Area: No effects.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Dear Pamela:

In response to your Letter of May 20, 2015 concerning some discrepancies in our Application For Transfer for water right 74-14689, we wish to amend our application and make the following corrections:

1. The point of diversion (the wellhead) should be listed as located in Lot 6, S32, T18N, R 24E (not Lot 8). The well location is plotted on the attached map.
2. The place of use should be corrected as outlined on the attached map to include parts of both Lot 6 and Lot 10 in S32, T18N, R24E.

The Department of Water Resources has received your Application For Transfer. Preliminary review of the application indicates there are some discrepancies in the proposed changes. The place of use is to be corrected to reflect the actual physical location of the right. The point of diversion also appears to be in error according to your comments on the form and could be corrected through this same transfer application. With the unusual quarter-quarter labels and government lot labels, I am not surprised by the mixed legal descriptions assigned to this right. I have added several aerial photo screen shots to help clarify your intent.

Current place of use general representation of 74-14689 based on NWNW, S32, T18N, R24E description.

Lemhi County Tax Lot RP18N24E320602 (previously RP18N24E322401) owned by Frahme. Current water right point of diversion represented as located in corner of Lot 8 (NWNW), S32, T18N, R24E.

According to transfer application comments and maps you submitted, the point of diversion and the home related to the domestic use under Right 74-14689 are located in Lot 6 (NWNE), S32, T18N, R24E. Location of a portion of the irrigation around the home in connection with domestic use appears to also be located in both Lot 10 (NENW), S32, T18N, R24E.

Please review the imagery above and let me know if you wish to amend your application to change both the point of diversion and place of use to Lot 6 (NWNE), S32, T18N, R24E. That would match the maps you submitted.

Also clarify if Lot 10 (NENW), S32, T18N, R24E should be included as part of the place of use related to irrigation around the home.

A written request from you is needed if you choose to amend the application. You can use the aerial photo enclosed as a separate page to draw the location point of diversion and draw around the domestic place of use (house and yard). You can also write your request for any amendments on the page. Please sign, date, and return the map to me for continued processing.

Please contact me at (208) 287-4951 if you have any questions regarding this matter.

Sincerely,
