CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

SCANNED
MAR 27 2015

11. This right when applied to lands via sprinklers shall be limited to 0.02 cfs per acre and 3.5 afa per acre at the field headgate for irrigation of the lands above.
12. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$6,970.00 was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 410.0 acre-feet. An annual payment shall be received by the Department prior to the execution of this agreement and prior to February 15 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$6,970.00 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. Pursuant to the Water Supply Bank Rules, 90% or \$6,273.00 of the rental fee will be paid to the lessor(s) and 10% or \$697.00 will be retained by the Department to offset administrative costs.

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The department received the application to rent 5.0 cfs and 358 af to cover 121.6 acres for when his right may get cut off this year. The applicant worked with Kevin Lakey, the watermaster to find some desirable rights. The rights he is seeking must be 1883 or senior in the Big Wood River. He has one right that may not get cut this year. It is 37-22219 and is for 6.29 cfs on 527 acres. Brown Ranch's POD (Glendale #50 Headgate) for WR 37-22219 will be used to deliver the rental water. It is on another entity's land. However, no special permissions are required because the applicant already has access to the POD.

The department requested a map of the area that would be irrigated from the applicant on November 20, 2014. The map of the entire water right was received via e-mail from Kevin Lakey. I contacted Kevin about our concerns with enlargement (spreading the water over the entire POU) on 3/10/2015 and explained to him that we would need a map of the acres that the rented water rights would be used to irrigate. I received a map on the same day.

AUTHORITY TO FILE: This application was signed by Daniel P. Brown, President of Brown Ranch Inc according to the ISOS web site. Brown Ranch Inc is the current tax lot owner for the rental POU.

WATER RIGHT VALIDITY: These rights will be used to fulfill this rental. Combined limits dictate the use of the junior water rights.

Basin	Sequence	Suffix	Priority Date	Leased Amount	Rented	Conveyance loss %	Available for rent	Expiration

37	20615		3/24/1883	0.19	0.00	0.20	0.15	indef

INJURY TO OTHER WATER RIGHTS: All of the rights used for this rental have PODs upstream of the rental POD. The rights will be delivered based on priority which should prevent any injury issues. Rights 37-20615 is associated with the Hiawatha Canal. This rights does not contain special provisions in regard to the Hiawatha Canal but last season Dave Cropper of the Hiawatha Canal, informed the department that their policy is to allow for a 20% conveyance loss. Because there are no conveyance allowances on the lease agreements, I will take out the conveyance loss during the rental.

ENLARGEMENT OF USE: I have confirmed that the leased rights that are going to fill this rental have been idled in accordance with the lease agreements. 37-20615 was severed from the property when the property was subdivided. (See "WSB- Lease Confirmation Letter with original lease agreement for 37-20401" in the file.) The rental will contain conditions to limit the rate and volume since Brown Ranch uses pressurized irrigation practices and some of the

SCANNED
MAR 27 2015

leases to fill this rental have large rates to accommodate conveyance losses. Note that the requested rate is higher than 1"/acre to account for conveyance losses from the Glendale Canal #50 diversion to the applicant's POU.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented rights are subject to Water District # 37. The watermaster had no concerns with this rental.

RE: Water Supply Bank Rental Application – Additional Information Required

Dear Applicant,

The Idaho Department of Water Resources received your application to rent water rights from the Idaho Water Resource Board's Water Supply Bank however, as submitted, your application is incomplete.

As submitted, your application cannot be processed. The required information is missing or insufficient:

- ☐ A completed *Application to Rent Water from the Water Supply Bank*
- ☐ If the application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ The place of use described in item #4 of the application does not match your map
- ☐ The signature is missing or we need power of attorney documentation for the signor
- ☐ How will the proposed diversion point of diversion convey water to the place of use
- ☐ Authorization from the individual/entity that owns the land at the place of use
- ☐ Authorization from the individual/entity that owns the land at the proposed point of diversion
- ☒ A map that clearly outlines the location of irrigated acres.
- ☐ Other: _____

I will place your application on hold while you submit your map. Please provide the required information within fourteen (14) days. While you are making corrections to your application, you will not lose your place in the processing queue.

The deficient item(s) discussed in this letter are minimum requirements. If sufficient information per this letter is not received within 14 days, you will lose your place in the processing queue. Applications that are received earlier in time have an increased chance of acquiring the requested rental water.

Please contact me if you have questions regarding this matter at (208) 287-4944.

Sincerely,

Cherie Palmer, Water Rights Supervisor

Hi Dan,

My name is Christine and I am writing to you about the rental application you submitted to the Dept of Water Resources this week.

On the second page of the Rental Application you did not list the time of proposed rental.

Did you want the rental of this water to begin in 2015?

Please advise the timeframe in which you wish to rent water from the Water Supply Bank.

RE: Idaho State Water Bank Application

To Whom It May Concern:

Please refer to the additional information as addendum to our application:

B.) Ownership

- 1.) The land where the point of diversion is located is owned by:

Sagebrush Equine Training Center, Inc.
114 Calypso Ln
Bellevue, Idaho 83313
(208)578-9111

The point of diversion is the head-gate for the Glendale Canal.

The application does not allow for a description of the water we would like to rent. We are interested in the following water rights in order of preference: 37-5, 37-833R, 37-481D, 37-496D, 37-496F, and 37-496B, and 37-363D. Of the 5 cfs of water we are looking to rent the more senior priority is obviously our first choice, but we do not know how these water rights might be paired with other rights. Your help is greatly appreciated.

Respectfully,

Dan Brown
