SHARED WELL USE AGREEMENT AND
MAINTENANCE & REPAIR EASEMENT

SHAUNA T. GEDDES, RECORDER
By [Signature] Deputy
Franklin County, Idaho

This Agreement made and entered into this 9 day of April, 2015, by and between Leo B. Walton and Koel H. Walton (LBW) and Sierra Homes Construction, Inc. (SHCI).

Whereas, LBW and SHCI own property – Lot 10 and Lot 9 respectively, in the County of Franklin, State of Idaho, which property is more fully described as:

Lot 10 (Ten) and Lot 9 (Nine) of the Surveyed Plat for Foster Meadows, recorded May 25, 2004 as Instrument No. 226257 in the records of Franklin County, Idaho;

Whereas, the undersigned parties have reached an agreement relative to shared rights in a well, the parties find it necessary to provide for the ongoing supply of water from this source and the cost of supplying said water to the Lots described herein; and

Whereas, a well is located on Lot 10 described as Well Tag No. D0065654 in the Idaho Department of Water Resources, it is the intention and purpose of the undersigned parties that the well system will be used and operated to provide water to Lot 9 and Lot 10, and to assure the satisfactory operation and maintenance of said system for the benefit of the present and future owners, their heirs, successors and assigns of the properties; and

For valuable consideration received, the parties agree to the entitled share in the use and enjoyment of the well located on Lot 10. Both parties will have their own pumps and pay their own utilities and expenses for their individual pumps. Expenses incurred for the well maintenance and repair will be shared by each party at fifty percent or one half. The owner of each Lot shall pay an equal share of all costs associated with operation and maintenance of the well that may become necessary. The consent of all parties shall be obtained prior to embarking upon expenditures for the well, except in emergency situations.

Each party shall have sole responsibility for the cost of repair, maintenance and replacement on all parts of the water system that do not benefit the other and that are used exclusively to serve their respective parcels.

LBW does hereby reserve a perpetual easement to SHCI for the right to egress and ingress over, across and through Lot 10 as shall be reasonably necessary to operate, maintain, and repair the well and well system. No party may install landscaping or improvements that will impair the use of said easement.

This Agreement shall be binding upon and inure to the benefit of the parties hereto, their heirs, personal representatives, successors and assigns.

Subject: New Application for Permit

Good Afternoon:

The Department has received your application for permit. I want to clarify a couple things for you, before I continue processing your application. The application as submitted if issued will be for 1 water permit for 0.08cfs serving 2 homes for domestic purposes. The authorized irrigation is ½ acre per home. If you were looking for something else, please let me know. If you have any questions, please let me know.

Thank you,

Kerrie Mathews
