RE: Permit No. 37-21465

Dear Permit Holder(s):

I am writing you in response to your letter dated May 18, 2015, regarding proof of beneficial use due for the above referenced permit. It is my understanding after reading your letter that you may be under the impression that this permit will remain in effect without proof of beneficial use since this permit is for municipal purposes, and that you believe this permit includes reasonable anticipated future needs, or (RAFN). This permit was not issued for reasonably anticipated future needs. It did not include additional justification necessary to establish reasonably anticipated future needs when it was applied for, and cannot be amended to include RAFN.

It is also my understanding after reading your letter that the development has not been completed. Pursuant to Idaho Code § 42-204 (4), a Request for Extension of Time (extension request) and \$50.00 filing fee may be submitted to the Department on or before the proof due date of **July 01, 2015**, if the project and the water use for this permit has not been completed. The extension request could be filed for up to 5 more years under due diligence or good cause.

If you have any questions, please contact me at (208) 287-4945.

Sincerely,

Darla Block
Technical Records Specialist
