Subject: FW: Water Right Transfer Proposing Ground Water Recharge

Gents,

I sent this e-mail to Kristina Fugate relating to a transfer application proposing recharge that the IWRB may or may not be interested in.

Subject: Water Right Transfer Proposing Ground Water Recharge

Kristina,

I received word that you were covering for Ann Vonde. I am passing word along that IDWR is processing a water right transfer application that proposes to change a 50.8 acre-foot portion of an irrigation water right to groundwater recharge storage and groundwater recharge from storage use. The application proposes to divert water into a reservoir and let the water sink through the bottom of the reservoir. The site is located generally a few miles south of Twin Falls. The application has been assigned a transfer number (80058) and the application will be published in the Times News on 5/21 and 5/28 with a protest deadline of 6/8/2015. The application documents can be reviewed at the following link...

<http://www.idwr.idaho.gov/apps/ExtSearch/RelatedDocs.asp?Basin=47&Sequence=16397&SplitSuffix=>

I am passing this information on, so that the IWRB is aware of the application and the potential recharge. If you have any questions feel free to give me a call (208)736-3033.

Corey Skinner
IDWR Engineer
