Re: State Water Supply Bank Status of 63-33517

63-33517 was split by transfer from 63-32445 in 2011. It has had 28.0 acres leased since the transfer was approved in 2011. All of these leased acres were in the NESE of section 36. (See Lease Status update letter dated 11/8/2012 in file). Upon approval of a transfer in 2014, 63-33517 only had 22.5 acres left in the bank. 63-33835 was split from 63-33517 by transfer in 2014. The new owners leased it entirely in 2014. 63-33517 was then split by ownership change into 63-33517 and 63-33992. This split the portion in the WSB. This could cause an enlargement of 63-33517 without clarification.

The only rentable portion of 63-33517 at this time is:

Water Right	Rate	Volume	Limit	Acres
63-33517	0.37 CFS	101.2 AF	NA	22.5 AC

These are the other two water rights associated with this lease.

63-33835	0.06 CFS	18.0 AF	4 AC	5.1 AC	(has its own lease as of 2014)
63-33992	0.02 CFS	6.8 AF	NA	1.5 AC	

When you add	22.5 Acres
	4.0 Acres
	<u>1.5 Acres</u>
	28.0 Acres (from the original Lease on 63-33517)
