Re: Transfer Analysis

Applicants propose to change the POD for water right 15-7384. Applicants purchased property with a portion of water right 15-7048 and split the right in July 2014. Applicants now seek to change the POD to a private house well on their property.

Authority to File:

The applicants are the current owners of the water right per IDWR record and owners of the proposed place of use per warranty deed (submitted with the change of ownership).

Water Right Validity:

Water right was licensed in 1989. Aerial photography shows the land being irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:

Injury to other rights is not apparent. The POD is moving approximately 500 feet to the southwest. POU will not change. Transfer was advertised and was not protested.

Enlargement of Use:

The proposed change will not result in enlargement of use. Neither rate nor acres will increase as a result of the transfer.

No issues identified.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
