_____	)	

WHEREAS, a drought emergency has been declared for Fremont County to allow administrative actions to lessen the severe impacts of the drought conditions in the counties; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point diversion, the place of use, and the purpose of use, for valid, existing rights or temporary exchanges of water authorized under water rights when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, *Idaho Code*; and

WHEREAS, on May 13, 2015, John Toenjes submitted the attached Temporary Change Application to the Department; and

WHEREAS, the department has reviewed the application and has determined the application cannot be approved;

ORDER

IT IS HEREBY ORDERED that the application is **DENIED** for the following reasons:

1. Idaho Code 42-222A (6) says, "Temporary changes shall only be approved for the purpose of providing a replacement water supply to lands or other uses which normally have a full water supply except for a drought condition. Temporary changes may not be approved to provide water for new projects or to allow expansion of the use of water under existing water rights." The Temporary Change Application proposes to change the place of use of water right no. 21-12949 to land which does not have a full water supply under normal conditions. In fact, the proposed place of use is not covered by a valid water right.
2. The Temporary Change Application proposes to change a water right which will likely not be in priority for the remainder of the irrigation season.
