Mink Creek

To: Birch Creek Canal Company

April 1, 2011

C/O Scott Seamons

6673 Birch Creek Road

Preston, Idaho 83263

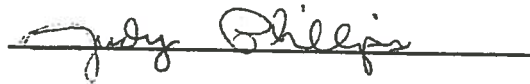

It has been brought to our attention that there is no weir located near the head of your canal, that needs attention. Could you please have one put in place in your canal prior to the beginning of the new water year, which begins April 20, 2011 or prior to your placing water in this canal as required by state law. This would be highly appreciated as we as a Water District are required to read the weir and report to the State on water usage during every water year. James Cefalo at the Idaho Department of Water Resources has also brought to our attention that there is no water right or adjudication for the Birch Creek culinary water that can be found in any state records. Of a further note, no legal entities show up on State of Idaho records for either the culinary or the ditch company at the current time.

Thank you, very much for your attention to this matter.

Richard Free

President 13N Water District

Judy Phillips

Secretary 13N Water District
