RE: Change in Ownership of Rt. 55-10097 and Application for Transfer 79399

Dear Mr. and Mrs. Stark:

We have processed the change in ownership you submitted for Rt. 55-10097. Enclosed you will find a proof report of the right showing you as the current owners.

We are in the process of reviewing the above referenced application for transfer and find you need to amend the form in order to proceed. Enclosed, for your convenience, is a copy of the transfer as it was submitted. Our forms have changed since you submitted your transfer, but this is not the issue. The legal description of your proposed point of diversion was omitted on the original form. I found that your proposed point of diversion is located within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29, Tsp. 5S, Rge. 5W. I have added this information to the "Amended" transfer application form. We also noticed that your water right is for 0.15 cfs, rather than 0.10. I have corrected this information also. Please review this form, and if you agree with the corrections, sign the form and return it to this office for processing.

Please submit the amended application for transfer within the next thirty (30) days. You may seek additional time to provide the amended form by making a written request to delay processing. Your written response including the amended application form, or a request for more time, must be received within the 30 day period. Without a timely reply, IDWR will issue a preliminary order to reject the application. The application fee will not be refunded for a rejected application. A rejected application may be re-filed when adequate information can be provided.

IDWR form and other information are available on the Internet at www.idwr.idaho.gov. Please feel free to contact me at 334-2190 if you have any questions concerning this letter.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
