

att. Department of Water Resources - Transfer App. 79399
Kay Walker

We recieved the copy of the protest from you and Mr. Lowry. Thank you for sending it.

If we were not in the process of filing for a change in the point of diversion on our property what would Mr. Lowry do with his problem of us using the water when he feels we shouldn't?

I feel that his protest has nothing to do with the point of diversion, therefore needs to be addressed in a different manner and should not stop our filing.

It is a very dry year and the stream is low. How are we to know when the senior water rights are not being met when we are the only users on the creek that can measure the amount of water being used.

The other point that needs addressed is that if we shut off our 35 gallons a minute can the users below us benificially use the water? How are we to know if the water can not be measured. It is our understanding that
