STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESAPPLICATION FOR PERMIT
IDWR / NORTH To appropriate the public waters of the State of IdahoIdent. No. 80022 95-17006

1. Name of applicant(s) Stafford Living Trust date Mar. 6, 2007 Phone 612-751-6588
 Name connector (check one) ☐ and ☐ or ☒ and/or
 Mailing address 5916 S. Arrow Road City Harrison
 State ID Zip 83833 Email es5916@imaxmail.net
2. Source of water supply Groundwater which is a tributary of _____
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
49N	3W	5		SW	NE		Kootenai	Groundwater	D0013418

4. Water will be used for the following purposes:
 Amount 0.04 cfs for Domestic Purposes purposes from 1/1 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) 0.04 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).
6. Proposed diverting works: This is a 400' well w/6" casing. Pump is
 a. Describe type and size of devices used to divert water from the source. 2 hp, single phase, 220 volt,
rated at 15 gpm. The pump is connected to a 1-1/4" pipe.
 b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No
 c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
 d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
 e. If well is already drilled, when? 7/15/2000; drilling firm United Pump;
 well was drilled for (well owner) Eagle Tree Group; Tacoma, WA; Drilling Permit No. 765490
7. Description of proposed uses (if irrigation only, go to item 8):
 a. Hydropower; show total feet of head and proposed capacity in kW. _____
 b. Stockwatering; list number and kind of livestock. _____
 c. Municipal; complete and attach the Municipal Water Right Application Checklist.
 d. Domestic; show number of households 1
 e. Other; describe fully. Domestic for one (1) home with up to 1/2 acre irrigation.

8. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below.
See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
49N	3W	5			D														

Total number of acres to be irrigated: _____

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

10. a. Who owns the property at the point of diversion? Stafford Living Trust dated Mar. 6, 2007
 b. Who owns the land to be irrigated or place of use? Stafford Living Trust dated Mar. 6, 2007
 c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:
Joint well agreement attached.

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.
This is an existing well currently serving one home. This application is to establish water rights for a second domestic user from this well.

12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

**Joint Well Use
Declaration and Easement**

This instrument is made and effective the 26th day of March, 2015, by Edward A. and Helen D. Stafford, Trustees of the "Stafford Living Trust Dated March 6, 2007", here after referred to as the "Trust", and Paul W. and Elaine S. Kingston, husband and wife, as all current owners of subject property, supersedes the previous Joint Well Use Declaration and Easement made the 1st day of April, 2003, by Eagle Tree Group, LLC and recorded April 10, 2003 as Instrument No. 1793062, records of Kootenai County, Idaho.

WHEREAS, Edward and Helen Stafford, the Trustees of the "Trust" containing the two (2) parcels of real property located in Kootenai County, Idaho, and legally described as STAFFORD ADDITION, Lot A and Lot B, Block 1, according to the Plat recorded in Book J of Plats, page 442, records of Kootenai County, Idaho, (hereafter referred to as the Subject Property); and WHEREAS, Paul and Elaine Kingston are the current owners of Lot 1, Block 1, COEUR D'ALENE LAKE ESTATES FIRST ADDITION, according to the Plat recorded in Book I of Plats, page 401, records of Kootenai County, Idaho. The Kingston property is in the process of being Replated into Lots 1, 2 and 3, Block 1, Avalon Acres and once recorded ONLY Lot 1 and Lot 2 of said Avalon Acres will be benefitted by and subject to this instrument (ALSO hereafter referred to as the Subject Property); and

WHEREAS, an existing water well, (hereafter referred to as the Well), is located on Lot A, Stafford Addition; and

WHEREAS, all owners of Subject Property, desire to create certain rights, easements and conditions for the use and benefit of the four (4) parcels identified above. (Lots A and B, Block 1 of Stafford Addition and Lots 1 and 2, Block 1 of proposed Avalon Acres)

NOW, THEREFORE, all owners declare that the Subject Property shall be subject to the rights, easements and conditions set forth herein, and such rights, easements and conditions shall run with the land and be binding upon the Declarants and its successors and assigns.

1. Water Rights. Each parcel of the Subject Property shall be entitled to take and receive water from the Well for "domestic purposes", as the term is defined in Idaho Code Section 42-111, or successor statute. Water from the Well shall only be used on the real property described herein, and the Well shall be exclusively for the use of the owners of the Subject Property. Each parcel of the Subject Property shall be entitled to water rights as acquired under the laws of the State of Idaho as they pertain to: (1) The General Adjudication of rights to use water from the Coeur d'Alene-Spokane River Basin water system or (2) as obtained through a Water Rights Permit Issued by the State of Idaho Department of Water Resources. In the event of any water shortage or other circumstances requiring rationing or other limitations on the use of the Well, any necessary restrictions shall be applied as defined by section (1) or section (2) above.

2. Well and Storage Reservoir Easement. A perpetual easement is hereby granted and reserved for the location, installation, maintenance and repair of the Well and two (2) original three thousand (3,000) gallon underground storage reservoirs located on Lot A Stafford Addition, as shown on the plat of BLOCK ONE STAFFORD ADDITION. The easement area shall be for the use and benefit of each parcel of the Subject Property.

3. Water Line Easement. Perpetual easements are hereby granted and reserved over and across Subject Property for the location, installation, maintenance and repair of said water lines. These easements are granted and reserved for the use and benefit of each parcel of the Subject Property. Water lines serving the proposed Avalon Acres Lot 1 and Lot 2 shall use the existing easement crossing Stafford Addition, Lot A. It shall be the responsibility of the owner of any parcel performing installation, repair or maintenance work on the water lines to reasonably restore the easement areas to their pre-work condition.

4. Water Connection Requirements. The owner of any parcel desiring to receive water from the Well shall professionally install an underground storage tank, and all pipes, valves, fittings and fixtures necessary to convey water from the existing Well to the point of use. A 3,000 gallon tank is recommended for each lot to ensure instant access to an adequate water supply. Each connected parcel shall install a meter to measure the quantity of water used, in gallons, in an accessible location at the point of use. Said meter readings will be used to prorate the electrical operating cost of the well system.

5. Connection costs. Each parcel owner shall be responsible for the cost of all permits, services, labor and materials required to connect to the existing Well System as shown on the plat.

6. Individual Maintenance Expenses. Each parcel owner shall be responsible for all costs of maintenance, repair or replacement of their individual pressure tank and all pipes, valves, fittings and fixtures used to convey water to their parcel.

7. Shared Operation and Maintenance Expenses. Any operation, maintenance, repair or replacement expenses required for the Well, water pump or other shared elements of the water system, shall be divided equally between the parcels receiving and using water from the Well. Monthly electrical operating expenses will be prorated among the connected users based upon readings from the installed water meters. Unless they are unable or unwilling, all required maintenance or other work on the main Well System shall be completed by United Crown Pump and Drilling, the original company that installed the Well System.

8. Majority Rule. Any disagreement among the parcel owners regarding repairs, replacement, improvement or any other issue concerning the operation of the water system shall be resolved in favor of a majority vote of the four (4) parcel owners, with each parcel receiving one (1) vote. An owner shall be entitled to one (1) vote for each parcel they own. In the event of a tie vote among the parcel owners, the disagreement shall be resolved by the toss of a coin. The coin shall be tossed into the air and allowed to fall without interference onto a flat surface. The position represented by the side of the coin facing up shall prevail and be adopted. In the event a deadlock cannot be separated into two (2) sides of an issue, then the matter shall be resolved by compulsory arbitration under the procedures of the Idaho Uniform Arbitration Act, title 7, Chapter 9, of Idaho Code.

9. Lien rights. Any connected for use parcel owner who, after sixty (60) days written notice signed by any other connected parcel owner, fails to pay any shared expense or charge due and owing under this Declaration, consents to the recording of a lien against that party's parcel for the amount owed plus interest at 12% (twelve percent) per annum. Any such lien recorded may be foreclosed in the manner of a mortgage lien under Idaho law. Any such filed lien is filed on the behalf of all non-delinquent parcel owners.

10. Default or Breach. In the case of material breach or default by any parcel owner regarding the terms, conditions and requirements of this Agreement, and upon failure of the defaulting party to remedy said default or breach within sixty (60) days after the mailing of written notice by certified mail, postage prepaid to the defaulting party, any other non-defaulting party, on behalf of the remaining non-defaulting parties, shall have the right to pursue any legal remedies allowed under Idaho law to enforce the Agreement. Failure to act as to any one breach or default shall not be considered a waiver of any rights for a subsequent action by the defaulting or breaching party.

11. Construction and Interpretation. The law of the State of Idaho shall apply to this Agreement and the proper venue for any action shall be in Kootenai County, Idaho. This document shall be interpreted in accordance with the fair and simple meaning of the words and not strictly interpreted against any party.

12. Attorney's Fees. In the case of any legal action or arbitration commenced hereunder, the prevailing parties shall be awarded attorney's fees and cost, whether in district or appellate court.

13. Modification and Amendment. Any and all alterations or amendments to this Agreement must be in writing and signed (notarized) by the titled owners of the Subject Property.

Application For Permit No. 95-17006

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 5/7/2015 and 5/14/2015. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Adam Frederick

Subject: Application for Permit No. 94-9392, 95-17006
Attachments: LegalNotice 05-01-15 CDA e-mail 94-9392, 95-17006.doc

Good morning, Jen,

Please publish the enclosed legal notice on the dates indicated, May 7 and 14, 2015, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

This should be very close to press ready for 2-column, 8pt, Century Old Style font. Please ask the layout/set-up person(s) to take note of the areas under **USE** in each of the two referenced applications containing dates and water usage amounts offset and lined up. Our legal should appear as submitted.

Please also send a proof/preview copy for my review before this actually goes to press.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 5/26/2015. Your cooperation is always greatly appreciated.

If you have any questions, please contact me as soon as possible. Thanks for your help in seeing our legals through to publication. You are truly appreciated!
