To: Who it may concern

My name is Dean Snyder I live at 3199 S. Selatir Pl in Meridian ID 83642. I would like to apply for the water rights on my property in order to turn 3 acres of my property in to pasture. We currently sit on 5.22 acres and have an existing well for the residence and landscape. We have roughly 3 acres that is undeveloped and currently covered in weeds. My access point to the irrigation water supplied by New York Irrigation is being blocked by 1 neighbor, and will be cost prohibitive accessing through another neighbors property. I would like to drill another well for irrigation so we can help eliminate the unsightliness of our lot, as well as help with weed control that is a growing problem everywhere.

Thank you for considering my request

Dean Snyder

The neighbor to my west has denied me access to the head gate on the west side of his property, the neighbor to my south has granted me permission, but the access point is in the south / west corner of his property. I would need to run irrigation pipe along his southern property line, along both the east property line of his and my property in order to get it to the north east corner of my property. The grade flows to the east along his property and west on mine. So I would need to not only run a roughly 1000 plus feet of irrigation pipe, I would also have to repair his current pasture / landscape, go under both his and my driveways, through his run off ditch, while pumping enough water uphill to irrigate 3 acres. The water that comes from the neighbor to the south currently has 3 properties on the head gate, 2 of which do not maintain their ditch well enough to have water flow correctly for the neighbor to my south. So not only will I have a huge expense to access the water I may still not have the correct flow or volume to adequately pump causing potential damage to the pump, unless I also installed a holding tank on his property.

PROPOSED AMENDMENT OF WATER PERMIT

J R Simplot Company of PO Box 27, Boise, ID, 83707, filed Application No. **79992** to amend a water permit with a 2010 priority from ground water totaling 3.0 cfs for irrigation use. The permit provides irrigation water for property located on the south side of W Thompson Rd. and 1 mile east of South Pleasant Valley Rd. The applicant proposes to amend the permit to change the nature of use to industrial use for a meat processing plant, change the season of use, change the points of diversion, and change the place of use to lands south of Kuna Mora Rd., approximately 2 miles east of Pleasant Valley Rd., and 1.5 miles west of South Cloverdale Rd.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the rights or proposed amendment, please see www.idwr.idaho.gov/WaterManagement/WaterRights/#NewListings. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise ID 83705 together with a protest fee of \$25.00 for each application on or before 5/26/2015. The protestant must also send a copy of the protest to the applicant.

MEMORANDUM

TO: Water Right File – 63-34048

FROM: Patrick Kelly – Water Resource Agent

DATE: April 10, 2015

SUBJECT: Additional information request

On the Application for Permit for water right 63-34048, Dean Snyder (applicant) proposes an 8” well 200 feet deep. In the proposal narrative, the applicant states a water bearing zone of 55-150 feet. The water bearing zone has to match the depth of the well. Contact with the applicant was made via telephone to confirm that the proposed well will be 200 feet deep, and so the water bearing zone should be 55-200 feet.
