

MEMORANDUM

TO: File 63-33699

FROM: Daniel Nelson – Staff Hydrologist

DATE: March 24, 2015

SUBJECT: Telephone Conversation with Permit Owner.

On this date, I contacted Michael J. McShane concerning his water use. During the in-house field exam review, it was unclear if Mr. McShane had irrigated his property. Mr. McShane confirmed he has irrigated the property and has grass that is growing. He informed me that he will send me photos and a map showing the area that he is irrigating and the area that he is applying the water.
