RE: Water Right Permit No. 02-7470 and 61-7679

Dear Mr. Nelson:

Enclosed are the figures you have requested on the above mentioned Water rights. These are the rights that are used for domestic drinking water .

- 1) For our MADD calculation I reviewed the last three years of pumping records and used the highest daily pumping record, which equated to 468 gpm.
- 2) For our PID diversion rate I referred to our plant design which can call for 1600 gpm.

If you have any further questions please feel free to contact me.

Sincerely,

Jeff Cook
Public Works Director

RE: Water Right Permit No. 02-7470 and 61-7679

Dear Mr. Cook:

I have been asked to attain the answers to two questions concerning the City of Glenn's Ferry's total water use needs before we can move forward with the licensing of the above two water rights. We will also need an amendment for water right 02-7470 to ensure the point of diversion is correctly described in the water rights, but I want to wait until I have all of the data I need to complete the licensing process. Please supply the following information:

- 1.) Our office will need the maximum average daily diversion (MADD) for the City of Glenn's Ferry's system. This amount can be supplied in gallons per minute (gpm) or cubic feet per second (cfs). This flow rate is for the entire City of Glenn's Ferry from all of their water sources including springs, ground water, and the Snake River.
- 2.) Our office will also need the Peak Instantaneous Demand (PID) diversion rate that is required for the entire city. Once again this can be submitted in gpm or cfs, and must be for the entire City of Glenn's Ferry's system. This rate would be the absolute maximum rate of flow that is required to supply the City of Glenn's Ferry during its highest period of use.

Once I receive the above information, I can move forward with the licensing of these two water rights. I do have to ask that this information be submitted within 30 days. If I do not receive the requested information from you by January 19, 2014, I will be forced to take action to void your permits under the provision of Section 42-219(8) of the Idaho Code.

Sincerely,

Daniel A. Nelson
