APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

DM 3-20-15
AMENDEDFEB 19 2015
WATER RESOURCES
WESTERN REGION

1. Name of applicant(s) Tim and Michele Connolly Phone 971-533-2844
 Name connector (check one): ☐ and ☐ or ☒ and/or
- Mailing address 11690 Orchard Ave City Nampa
 State Id Zip 83651 Email michele.connolly@hotmail.com
2. Source of water supply groundwater which is a tributary of n/a
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
3N	2W	18			SE	SW	Canyon	groundwater	

4. Water will be used for the following purposes: DEC mce
 Amount .09 cfs for Irrigation purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) _____ cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).
6. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. pump, Sprinklers, dripline
4 different zones 3 sprinklers and 1 dripline
- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
- c. Proposed well diameter is 8" 10" inches; proposed depth of well is 140 feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
- e. If well is already drilled, when? _____; drilling firm _____;
 well was drilled for (well owner) _____; Drilling Permit No. _____
7. Description of proposed uses (if irrigation only, go to item 8):
- a. Hydropower; show total feet of head and proposed capacity in kW. _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; complete and attach the Municipal Water Right Application Checklist.
- d. Domestic; show number of households _____
- e. Other; describe fully. Irrigation for organic farm

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
3N	2W	18											X					x	3

Total number of acres to be irrigated: 3

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

Pioneer Irrigation District
we have not used and will not use

10. a. Who owns the property at the point of diversion? Jim + Michele Connelly
- b. Who owns the land to be irrigated or place of use? Jim + Michele Connelly
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Irrigation for organic farm

* cannot use Above ground above water ^{to} contaminated for organic growing

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

**EXTENSION OF TIME TO AVOID
FORFEITURE OF WATER RIGHT**

Cindy Whitmill of 5139 Sky Ranch Rd., Nampa, ID, 83686, filed an Application proposing an Extension of Time to Avoid Forfeiture of 5 years for Water Right No. **02-10374** with a 1963 priority from the Snake River totaling 0.071 cfs. The right holder proposes nonuse of the right due to delivery issues. The irrigation right was decreed in 2009 and it is unknown when it was last used. The right serves property located approximately 0.9 miles south of Richardson Lane, 0.9 miles east of Pump Rd., north side of W. Stagecoach Rd. and west side of Sky Ranch Rd.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the rights or proposed extension, please see www.idwr.idaho.gov/WaterManagement/WaterRights/#New_Listings. Protests may be submitted based on the criteria of Sec 42-203A and 42-222, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 5/26/2015. The protestant must also send a copy of the protest to the applicant.

Good Afternoon, Michele,

In order to advance your application (63-34039) to the advertising stage, I need to confirm the following changes to your application for permit.

1. The season of use for irrigation will be from March 1st to November 15th. This is the standard irrigation period for land in your area.
2. Section 5, total quantity of water to be appropriated, was left blank on your form. We will assume your total quantity to be appropriated is the total diversion rate of your irrigation use, so .09 cfs.
3. Your POU description on the form has a general 'X' in the SESW and in the SESE corners. Based on your attached map and my phone conversation with your husband on 4/27/15, irrigation will occur in T03N R02W Sec 18 in the SE corner of the SW corner.

Please reply to this email confirming that you understand and approve the above changes. Once I receive your reply, I can file this correspondence and get your application into advertising as soon as possible, most likely by the first week in May.

Thank you for your quick attention to these matters.

Sincerely,

Danie Merriman

Re: Application for permit 63-34039

Dear Mr. and Mrs. Connelly,

The purpose of this letter is to request additional information related to the application for permit 63-34039 submitted on February 19, 2015. There are a few points of clarification that need to be addressed in order to further process your application.

First, your application requests 0.03 cfs of water to be diverted for irrigation over three acres of land. Given this use, you are allowed a total of 0.09 cfs of water to be diverted (.03 cfs per acre for requests under five acres). Your requested amount, 0.03 cfs, is the minimum approvable amount and assumes that only a half inch per acre of water will be used. It is the Department's recommendation that you apply for the maximum amount allowed, allocating for the most flexibility during the period of development. If you choose not to amend your application, please send information clarifying why you are asking for a lesser amount of water.

Second, section eight of the application for permit form requires the description of acreage to be irrigated within each 40 acre quarter quarter. Based on Canyon County tax lot information and the map you included, it appears you would like to irrigate the SESW corner of 3N2W18. Please amend your application to reflect the correct location of the area you wish to irrigate. Mark the area using the number of acres that will be irrigated.

Section 6a of the application requires a description of the proposed diverting works. Are you flood irrigating? Using a sprinkler system? Please amend your application to include a more detailed description of how you will move the water from the source.

Section 13 of the application requires a map that clearly identifies the proposed point of diversion and place of use. Please amend your map to show where the well will be drilled as well as the area you are planning to irrigate.

Finally, because the proposed irrigation area is in water basin 63, applicants are required to describe the water bearing zone for their wells. This is not on the original application, but is important to know for advertising the application later on.

I am returning a copy of your original application with notes showing the areas that need to be addressed. Please submit the amended application (with your initials by the corrected areas) and requested information for the application to be processed. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

A handwritten signature in cursive script that reads "Danie Merriman". The signature is written in dark ink and has a fluid, connected style.
