Subject: Application to lease water rights 37-577CA, 37-659A, & 37-7017 to the Idaho Water Supply Bank

Dear Ms. Palmer,

Please find attached six Idaho Water Supply Bank lease applications involving the above-listed water rights. Three of these applications are identical to those previously submitted except that water right numbers have been changed to reflect a recently-approved transfer. The other three applications are for 2.6 acres of the above-listed water rights; these applications are submitted separately because the water right numbers did not change as a result of the recently-approved transfer. Ownership information regarding this 2.6-acre portion of the above-listed water rights is being provided by Jim Speck, the applicant's attorney, under separate cover.

Your letter of February 12, 2015 raised a question regarding potential enlargement if water right 37-8485 is accepted into the Water Supply Bank. This water right is not included in the attached applications.

No additional processing fee is included because the applicant is already paid the maximum fee (\$500) for multiple-right lease applications.

In advance, thank you for your efforts in processing these applications. In the meantime, please call Lori Graves of our office or me if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Christian R. Petrich", is written over a horizontal line.

Christian R. Petrich, Ph.D., P.E., P.G.
