

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 63-33910

Priority: February 03, 2014

Maximum Diversion Rate: 4.50 CFS

This is to certify, that BID LLC
C/O DOUGLAS K BATES
950 W BANNOCK ST STE 1050
BOISE ID 83702

has applied for a permit to appropriate water from:

Source: BOISE RIVER

Tributary: SNAKE RIVER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
WILDLIFE	09/01 to 02/28	4.50 CFS	
RECREATION	09/01 to 02/28	4.50 CFS	
DIVERSION TO STORAGE	09/01 to 02/28	4.50 CFS	
WILDLIFE STORAGE	09/01 to 02/28		15.0 AF
RECREATION STORAGE	09/01 to 02/28		15.0 AF

LOCATION OF POINT(S) OF DIVERSION:

BOISE RIVER L4 (SW1/4NW1/4) Sec. 26, Twp 05N, Rge 05W, B.M.
CANYON County

PLACE OF USE: WILDLIFE

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **May 01, 2020**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
4. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
5. This right does not grant any right-of-way or easement across the land of another.
6. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
7. The right holder shall install or construct a straight length of conduit or ditch suitable for installation of a device for measuring the entire flow of water being diverted in connection with this right. If the right holder uses conduit, the straight length of conduit shall be at least fifteen times the diameter of the conduit and shall be above ground or otherwise easily accessible.
8. Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.
9. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
10. The wildlife and recreation use established by the storage of water under this right shall not exceed a total capacity of 15.0 acre-feet or a total surface area of 30 acres.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 63-33910

11. Rights 63-33905 and 63-33910 are limited to a total combined diversion rate of 4.5 cfs during the period from 9/01 to 11/15.
12. Rights 63-33905 and 63-33910 are diverted through the point of diversion described above.
13. Wildlife and wildlife storage use is to create shallow water and moist soil for wildlife and waterfowl habitat.
14. Recreation and recreation storage use is for waterfowl hunting.
15. This right shall be junior and subordinate to future water rights authorizing the diversion and use of water from the Boise River and its tributaries, including ground water, for consumptive uses, except that this right shall not be subordinate to future water rights for similar wildlife, recreation and/or aesthetic uses.
16. This right shall be junior and subordinate to future minimum in-stream flow water rights that may be established for the Boise River and its tributaries.
17. Subsequently approved permits based on earlier-in-time applications may reduce the amount of water available for appropriation under this right and may result in a reduction of the quantity found to be beneficially used at the time of licensing of this right.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 27th day of April, 2015.

RE: Permit No.63-33910

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-334-2190.

Sincerely,

Rachel Neely

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

EXTENSION OF TIME TO AVOID FORFEITURE OF WATER RIGHT

Dorel and Ligia Antimie of 844 W Heather Woods Dr, Nampa, ID 83686 filed an Application proposing an Extension of Time to Avoid Forfeiture for Water Right No. 63-32058 with a 1967 priority from ground water totaling 0.08 cfs. The applicants do not know the year the right was last used. The right serves property located in the Salmon Ridge Subdivision, southeast of the intersection of Farner Road and Lewis Lane in Nampa. The applicants requests the extension of time because they recently purchased the property, are currently building a home, and need additional time to install the irrigation system.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the right, please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. For specific details of the extension see this link www.idwr.idaho.gov/apps/ExtSearch/SearchWRAJ.asp using right no 63-32058. Protests may be submitted based on the criteria of Sec 42-203A and 42-222, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 12/22/2014. The protestant must also send a copy of the protest to the applicant.

RE: Water Right Application 63-33910

Dear Mr. Lester,

The Idaho Department of Fish and Game (IDFG) has reviewed application for permit number 63-33910. The application proposes to divert 4.5 cubic feet per second (cfs) of water from the Boise River from September 1 through February 28 to be used for recreation and wildlife. The applicant proposes to divert water to flood 30 acres at a depth range of less than one inch up to approximately 12 inches. Season of use would allow flooding to occur from approximately one month prior to the start of the waterfowl hunting season through the end of the season. Wildlife benefits are stated as miscellaneous wildlife, including waterfowl habitat. Recreation benefit is stated as waterfowl hunting. Place of use is in T5N, R5W, Sections 26. Water will be returned to the Boise River at the downstream end of the property.

The purpose of these comments is to assist the decision-making authority by providing technical information addressing potential effects on wildlife and wildlife habitat and how any adverse effects might be mitigated. It is not the purpose of IDFG to support or oppose this proposal. Resident species of fish and wildlife are property of all Idaho citizens, and IDFG and the Idaho Fish and Game Commission are expressly charged with statutory responsibility to preserve, protect, perpetuate and manage all fish and wildlife in Idaho (Idaho Code 36-103(a)). In fulfillment of our statutory charge and direction as provided by the Idaho Legislature, we have identified the following issues and concerns and provide recommendations for your consideration.

As written, the application does not demonstrate a benefit to wildlife as a result of the proposed water diversion, nor does it demonstrate a benefit to public recreation. The application states that waterfowl habitats created as a result of the proposed diversion will benefit wildlife, including waterfowl, while the recreation benefit from the diversion will be waterfowl hunting. Additionally,

Keeping Idaho's Wildlife Heritage

the application proposes to cease diverting water at the end of the waterfowl hunting season, generally the second or third week of January. This suggests that the intent of the diversion is to attract waterfowl to private property during the hunting season for the sole purpose of hunting, which does not in and of itself provide a benefit to wildlife or public recreation. The Department suggests, rather, that public resources and recreation are dependent on water in the Boise River to provide fish and wildlife habitats and, therefore, may be negatively affected by the proposed diversion.

IDFG suggests this proposal should be carefully examined for potential effects to public resources and public benefits and that those effects be weighed against private gains. To facilitate such an assessment, we recommend that IDWR request specific information from the applicant on how these waters would be managed to benefit wildlife and public recreation. Variables affecting waterfowl survival and productivity, such as nesting habitat, overwinter habitat, food availability, and human disturbance relative to the proposed water diversion should be quantified by a qualified biologist and results included in an amended application. IDFG staff is available at the request of IDWR to review and provide comment on any additional information.

Additionally, IDFG staff has reviewed several similar applications on the lower Boise River. We are concerned that cumulative effects of incremental flow reduction from such diversions are likely to have repercussions for public resources reliant on Boise River winter flows, resources such as overwinter fish habitat, waterfowl overwinter and nesting habitats, and riparian zone maintenance. We request that IDWR consider cumulative effects to public resources when reviewing water diversion applications.

Thank you. Please contact Rick Ward in the Southwest Region at (208)475-2763 or rick.ward@idfg.idaho.gov if you have any questions.

Sincerely,

Scott Reinecker
Southwest Regional Supervisor
