TWIN FALLS, IDAHO 83301

Errata Sheet for Brockway Engineering Expert Reports for Transfers 79357, 79380, 79384 and 79466.

Transfer 79466 proposes a new third well be added as an authorized point of diversion for 47-2306B. Transfer 79466 also proposes to update the authorized commercial place of use to include only Township 11 South Range 16 East Section 6 NENE, NWNE, SWNE and SENE. The current commercial place of use includes pivots and irrigated areas that are no longer required by IDWR to be included in the commercial place of use to allow the application of dairy wastewater.

Brockway Engineering Expert Reports for Transfers 79357, 79380 and 79384 indicated in Table 2 of each report that the aquifer bottom is at 700 feet. The footnotes for this value indicated that 700 foot value was obtained from the Fowler, 1960 report. The footnote reference is incorrect. The 1997 Cosgrove report indicated that the bottom of the basalt was 700 feet.
