Re: Water Right Permit No. 63-8392

Dear Mr. Sager:

I am writing to inform you of an existing water right permit which exists on your property at 164 W. Lucy Street, Eagle, Idaho. A water right permit is not a water right, but a permit issued by the Department to allow beneficial use of water as requested by the applicant. The beneficial use for the water right permit is to divert ground water for irrigation, domestic use, and stock water. The water right permit was issued to the previous property owner, Gloria Anderson.

In order to proceed with obtaining a water right for irrigation, domestic use, and stock water, there are two options available which transfers the water right ownership to you. The first option would be to have Ms. Anderson assign the water right permit to you. If you have contact information for Ms. Anderson, we can submit an 'Assignment of Permit' form to her for execution. The process fee for an 'Assignment of Permit' is \$25.00. If contact information is not attainable for Ms. Anderson, the next option would be to proceed with obtaining the water right under Ms. Anderson's name. Upon issuance of the water right, you will then need to execute a 'Change of Ownership'. This will officially transfer the water right ownership to you. The process fee for the 'Change of Ownership' is \$25.00. The 'Change of Ownership' form can be downloaded from the Department's public website at www.idwr.idaho.gov, or we can mail a copy with the instructions to you.

The next step which needs to take place to proceed with issuance of the water right is to conduct a field examination. The field examination is required to verify that the permit information is accurate, and if possible to obtain a water flow measurement. If the ground water is no longer being put to beneficial use for irrigation, domestic use, and stock water, please let me know and will proceed with relinquishment or voidance of the water right permit. However, if you are beneficially using the ground water for irrigation, domestic use, and stock water, you are required to obtain a water right from our Department.

I am planning to conduct water right field examinations in your area **during the week of April 21**. Please contact me to schedule a field examination for a day and time that is convenient for

you. **Please call me at (208) 334-2190 by April 18 to conduct the field exam during the week of April 21.** If there is a problem with scheduling or conducting a field examination at this time, please let me know so we can reschedule.

If you have any questions, you can contact me at the Idaho Department of Water Resources Western Region Office at (208) 334-2190, or by e-mail at rick.collingwood@idwr.idaho.gov.

Sincerely,

A handwritten signature in black ink that reads "Rick Collingwood". The signature is fluid and cursive, with a large loop at the end of the last name.

Rick Collingwood, P.E.
Water Resource Agent, Sr.
