Re Permit To Appropriate Water No. 63-31308

Dear Mr. Smith:

The permit referenced above was issued for domestic use for three residential lots in the Eagle Heights Addition, Second Division, from ground water. This letter is to request that you call me to schedule the field exam for this permit. A field exam is required by Idaho law before a license can be issued, at which time it becomes a water right. The license is the end product needed for continued water use.

Additionally, please have available at the exam someone familiar with the system and its construction, as well as the following documentation:

- 1 – pump and motor specs;
- 2 - the depth at which the pump is set; and,
- 3 – a pump curve.

If you no longer own the property, please send the signed and notarized assignment of permit form and I will suggest to the new owners that they pay the required fee to change the ownership of the resultant water right. Even if you no longer own the property, I will still need the information listed above.

Please call me as soon as possible at 208.334.2190, to set an appointment for the exam. Failure to respond to this letter request **by December 13, 2013**, may result in the permit being voided or a license issued for less than the permitted amount. Thank you.

Sincerely,

Vicky Muste
Sr. Water Resource Agent

Enclosure: Assignment of Permit form
