RE: Scheduling Field Exam for Water Right Permit No. 63-12568

Dear Mr. & Mrs. Camp:

We are planning to conduct water right examinations in the vicinity of the above-referenced permit during the week of June 25, 2012. An examination is needed to verify the water use in order to issue a water right license.

The above-referenced permit authorizes use of surface water (Eight Mile Creek) for irrigation of 2.5 acres and stockwater. I have enclosed a water permit report and a map depicting the permit place of use and point of diversion for your reference.

The current water right permit owners of record are Richard and Christine Maschmann. We have been unable to contact Mr. and Mrs. Maschmann. Ada County tax lot information indicates you are the current owners of the place of use property, Lot 21, Block 5, Five Mile Estates West #2 Subdivision, associated with this permit. A water right permit is personal property of the permit owner and it remains personal property unless it is assigned to a new owner. I have enclosed an Assignment of Application for Permit for your information. The water permit owners, the Maschmann's, will need to execute the Assignment of Application for Permit to assign the water permit to you. I have also enclosed a Notice of Change in Water Right Ownership, and a Water Rights Ownership description to hopefully provide some guidance and clarification relating to water rights. **Please call me at 208-334-2190 by June 18, 2012 with any questions you may have and to schedule an exam appointment.** If there is a problem with scheduling or conducting the examination at this time, please call and other arrangements can be made. I appreciate your attention in this matter and I look forward to hearing from you.

Sincerely,

Rick Collingwood, P.E.
Water Resource Agent, Sr.
