CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **May 01, 2020**.
2. Subject to all prior water rights.
3. Rights 34-57, 34-58, 34-836, 34-4039, 34-10585 and 34-14339 when combined shall not exceed a total diversion rate of 15.2 cfs.
4. The right holder shall install a measuring device that can be used to determine the instantaneous rate of flow of water through the power generation system, or the right holder shall provide to the department a flow rate measurement or computation made by a certified water right examiner in accordance with actual system design and operation.
5. When diverting water for power purposes under this right, the right holder shall maintain an instantaneous bypass flow of at least 0.2 cfs past the point of diversion on Rock Creek, located in the SESWSE of Section 34, T10N, R22E. The right holder shall cease diverting water under this right if the bypass flow in Rock Creek is less than 0.2 cfs.
6. The right holder shall maintain a permanent measuring device, with staff gage, in Rock Creek capable of measuring the required bypass flow of 0.2 cfs. The measuring device shall be approved by IDWR after consultation with the Idaho Department of Fish & Game. At least once per year, the right holder shall confirm that the bypass flow measuring device is in good condition and providing accurate measurements prior to diverting water for power purposes.
7. The measuring device for the bypass flow shall be located no more than 100 feet downstream of the authorized point of diversion for this right, located in the SESWSE of Section 34, T10N, R22E.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 34-14339

8. Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.
9. Use of water under this right shall be non-consumptive.
10. This right is subject to the provisions of Sections 42-205 through 42-210, Idaho Code, restricting the sale, transfer, assignment, or mortgage of this right. Failure to comply with these provisions is cause for immediate cancellation of this right.
11. The rights for the use of water acquired under this right shall be junior and subordinate to all other rights for the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this right and shall not give rise to any claim against any future rights for the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
12. This right does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.
13. The term of this permit shall run concurrently with the length of any effective energy sales agreement between the right holder and a purchasing utility. Prior to the expiration of the term, the Director may issue an order canceling all or any part of the use authorized herein, may establish a new term, or may revise, delete, or add conditions under which the water right permit or subsequent water right license may be exercised. The order shall take effect on the date the current term expires. If the Director does not issue such an order, the term shall automatically extend to a length equal to the prior term and any prior conditions on the water right permit or subsequent water right license shall remain in effect.
14. If it has not been previously provided, the permit holder shall submit a copy of the FERC authorization or license and a copy of the effective energy sales/purchase agreement for this project in conjunction with the Proof of Beneficial Use statement.
15. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
16. This right does not grant any right-of-way or easement across the land of another.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 27th day of April, 2015.

for GARY SPACKMAN
Director
