RE: Permit No.85-15767

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-762-2800.

Sincerely,

Keith E. Franklin
Program Manager

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Subject: Application for Permit to Appropriate the Public Waters of the State, Ident. No. 85-15767 and 85-15768

Dear Mr. Franklin:

DEQ has received a request for comment on the approval of two applications, Ident. No. 85-15767 and 85-15768, to construct a well and draw a total quantity of 0.84 cfs (0.40 and 0.44 respectively) of ground water for irrigation, domestic, and stock water use from January 1 to December 31. Based on the information that has been provided, DEQ cannot estimate nor predict impairments to surface or ground water beneficial uses resulting from the requested withdrawal. However, assuming all federal, state, and local permits have been obtained, regulations met, and reviews completed, we can offer the following comment.

This activity will comply with all aspects of the Well Construction Standards Rules, IDAPA 37, Title 03, Chapter 09. In addition, all work will be completed following the guidelines, best management practices, rules and regulations found in "Idaho Well-Driller's Regulatory Compliance Guidebook", Marc McGregor, UI, distributed by the Idaho Department of Water Resources.

It is the policy of the State of Idaho, Ground Water Management Plan that existing and projected beneficial uses of ground water and interconnected surface water be maintained and protected and degradation that would impair beneficial uses of ground water and interconnected surface water not be allowed.

Thank you for the opportunity to comment on this application. If you have any questions regarding the Idaho Water Quality Standards, please call the Lewiston Regional Office at (208) 799-4370.

Sincerely,

Dear Ray and Cindy,

The Department of Water Resources is seeking written comment and/or recommendations from each of your agencies regarding the above referenced water right applications. A copy of each of the applications is attached for your reference.

These are both from ground water, in the sensitive basin area of the Lewiston Plateau Ground Water Management Area (LPGWMA).

We need your turnaround on this as soon as possible. Your prompt response to this request will be greatly appreciated.

Please contact Eric Davis in this office if you have any questions regarding these applications.

Thank you very much

MEMORANDUM

To: Water Right Application # 85-15767 and # 85-15768

From: Eric Davis

Date: May 29, 2014

Re: Application for a permit to Appropriate Water within the Salmon and Clearwater River Basins.

Re: Regional Analysis and Recommendation in with Water Appropriation Rules (IDAPA 37.03.08.040.050).

Water Supply Information.

The Idaho Department of Fish & Game has no comment and the Department of Environmental Quality has no objection to the application of Water Rights #85-15767 and #85-15768. This application is for withdrawing a maximum diversion rate of 0.28 cfs from new well for the purpose of Irrigation, Domestic and Stock water.

Good Faith, Delay, or Speculative Information.

The applicant plans to divert water for its own use on the property that it owns. There are no known issues with any other party.

Financial Resources Information.

For this irrigation, Domestic and stock water project the applicant has all the equipment and supplies needed.

Local Public Interest.

The Northern Region has asked the Idaho Department of Fish & Game and Department of Environmental Quality for comments. Written comments received from and Department of Environmental Quality indicate they are not opposed to the applicant's proposal and see no adverse impact to fish, wildlife, habitat or water quality.

Injury to Other Water Rights.

The source of water is the Clearwater River that has a minimum stream flow requirement. There does not appear to be any foreseen impacts to minimum stream flows based on the comments from the Idaho Department of Fish & Game and Department of Environmental Quality.

Recommendation.

The Northern Region recommends proceeding with the processing of this water right application.
