**RE: RETURNED APPLICATION(S) TO LEASE WATER RIGHT NO(S). 34-2357B, 34-7055, AND
34-10923 TO THE WATER SUPPLY BANK**

Dear Applicant:

On March 25, 2015 the Department of Water Resources (Department) sent you a letter requesting additional information in order to evaluate your lease applications. To date, the Department has not received a response to the request. At this time the Department cannot make a determination of the approvability of your lease applications due to the lack of the required information outlined in our previous letter.

This letter is notice that the attached applications to lease water to the Bank are being returned to you. You may re-file your lease application(s) within fourteen (14) days with the requested information without having to submit new application filing fee(s). Department resources were expended in order to provide a review of your applications; therefore, the lease application filing fees will not be refunded in any case.

The second component to your application package is rent the above referenced water rights from the Bank. Essentially your request proposed to change the point of diversion of the leased water rights. Since the leases cannot be approved, the rental application cannot move forward. There are also deficiencies in regard to the rental application as outlined in the Department's previous letter; therefore, your rental application is also being returned to you.

If you have any questions regarding this matter, please contact me at (208) 287-4944.

Sincerely,

Cherie Palmer
Water Rights Supervisor

- F. Do any POD(s) identified in Question 3D divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- G. Has water modeling been provided with your rental request? Yes ☒ No ☐

If yes, include as Attachment 3G. Otherwise please explain why modeling was not provided:

Rental applications that require modeling will be returned if modeling is not provided.

- H. Specify the proposed beneficial use: ☒ Irrigation ☐ Commercial ☐ Industrial ☐ Municipal
☐ Groundwater Recharge ☐ Mining ☐ Stockwater ☐ Other: _____

- I. Refer to the map you created in item 2 and specify below the places you propose to use water. If for irrigation, specify the number of acres to be irrigated per ¼ ¼ tract. Otherwise indicate usage by marking the ¼ ¼ tracts with the first letter of your proposed use identified above:

- J. For irrigation uses, do you propose a water diversion rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, explain the justification for this rate of flow and attach any supporting documents as **Attachment 3J**:

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it
Attachment 3K.

- L. Describe your water distribution system and how water will be delivered from the POD(s) to the proposed POU(s):
Water will be diverted from a new well into the Munsey Canal. The Munsey Canal conveys the water to the Applicants' place of use.

M. List all other water rights and sources of water at the rental place of use for the same purpose and explain why additional water is required. Include privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company, or any other water deliver entity:

Water Right Nos. 34-852C, 34-7116 are also used at the place of use. This application will not provide additional water. It will only make a temporary change to the point of diversion.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the water rights you are requesting to rent. Otherwise continue to Section 5 of this application form.

Please note: Diversion rates and volumes to be rented from a leased water right must be proportionate to the per acre diversion rates and per acre volume limits of the water right leased to the Bank. Applicants should query a water right's rental availability by reviewing active lease and rental documents, searchable via [IDWR's website](#), to ensure all elements of a water right remain available in sufficient quantity to satisfy a rental request.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany the rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.**

For leased rights with combined limits, applicants should request to rent against the combined limit diversion rate, volume or acre limits.

Water Right Nos. 34-7055 and 34-10923 have a combined diversion rate limit of 4.8 cfs and a combined volume limit of 1074.5 acre-feet.											
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre that have been leased to the Water Supply Bank									TOTAL	6.8	1361.5

Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

- C. Does your rental request propose to change the nature of use for any water right(s) being requested? Yes ☐ No ☒
If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented, as well as the new consumptive use amount for your proposed beneficial use. Attach a separate page if space is insufficient and label it **Attachment 4C**:

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe: _____

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

RESPONSE DEADLINE

RE: Water Supply Bank Lease and Rental Application of Water Rights 34-2357B, 34-7055, and 34-10923 – Additional Information Required

Dear Applicant:

On March 5, 2015, the Department of Water Resources (Department) received your application to lease and rent water to and from the Water Supply Bank (Bank).

In accordance with Bank Rules, IDAPA 37.02.03, water rights may be leased to the Bank and made available for rent provided the change does not cause injury to other right holders or enlargement of use of the water rights and the change is in the local public interest. These criteria are used in evaluating whether it is appropriate to authorize the rental of a water right leased to the Bank.

Unfortunately your applications did not contain all the required items necessary to ensure the above referenced criteria will be met.

This letter is notice that your applications for lease and rental of water cannot be processed until the following items are addressed:

Lease Application

- Question 1D of the lease application asks if the diversion system is owned or managed by a delivery company. Your answer was "No." However, water under these water rights is conveyed using the Inland Canal and the Munsey Ditch. Please provide written consent from the entity that oversees the Inland Canal and the Munsey Ditch. This requirement is pursuant to Idaho Code 42-108 and Idaho Administrative Rules 37.02.03.25.02.e.
- Water rights 34-07055 and 34-10923 are completely stacked by surface water rights 34-852C and 34-7116. The Department must avoid causing an enlargement of water rights when accepting water rights into the Bank. Unstacking water rights would cause an enlargement of all water rights involved. In order to move forward you must apply to lease water rights 34-852C and 34-7116 into the Bank and completely dry up the appurtenant lands.

Rental Application

- Question 3L of the rental application asks for a description of the water distribution system and how water will be delivered from the POD to the POU. The proposed POD is owned by Marilyn Lambert. Please provide a copy of the agreement between Jay and DeAnn Jensen and Marilyn Lambert which gives the Jensens consent to utilize the Lambert well in T04N R26E S26 NWNW.

If it is not feasible to assemble a complete lease-rental package at this time, other options are available to the applicant. You may explore such options as a "water right transfer" or a "temporary transfer." A "water right transfer" is a change to a water right's point of diversion, place of use, period of use, and/or nature of use. A "temporary transfer" can be utilized to change point of diversion, place of use, or purpose of use of a water right upon declaration of a drought emergency, in accordance with Idaho Code 42-222A.

Because you submitted your application on March 5, 2015 and are requesting to use water April 1, 2015; an executed rental agreement may not be in place for you to begin irrigating by your desired start date. Furthermore, a rental agreement is not imminent and your rental application could be denied.

For future rental requests, the Department asks that you submit any future rental application many months in advance of the start date of your proposed rental. This allows the Department time to process your request. Please note that any diversion in connection with the rental application is not authorized and diverting water prior to receiving an executed rental agreement is cause for a notice of violation.

I will place your application on hold while you submit your additional information. Please provide the required information within fourteen (14) days. If sufficient information per this letter is not received within 14 days, your applications will not be processed and will be returned to you.

If you have any questions regarding this matter, please contact me at (208) 287-4800.

Sincerely,

Ashley Newbry

Ashley,

We are proposing to use a new well that was drilled last year as a replacement well for the Lamberts. The Jensens have an agreement in place with the Lamberts to use the well.

If you have any other questions, do not hesitate to contact me.

Subject: Jensen Water Supply Bank Rental App

Mr. Marchant,

I am writing to request clarification on your rental application to the Water Supply Bank, submitted on behalf of Jay and De Ann Jensen. In reviewing the application, I'm not clear if the "new well" that they plan to use is an existing well that was recently drilled, or if they are requesting to drill a well in the near future as part of this application. (Perhaps I am not correctly understanding their proposal.)

I can't find any recent drilling logs in T04N R26E S26 NWNW in the name of the Jensens. (The POD suggested on your map aligns with a well owned by the Lamberts, is this the case?)

Thank you for your assistance,

RE: Lease/Rental Package for Jay and De Ann Jensen.

To Whom It May Concern:

Enclosed for processing are *Applications to Lease and Rent Water* that are being submitted as a package for Jay and De Ann Jensen. The purpose of these applications is to make a temporary change to the point of diversion for three of the Jensen's water rights. There will be no changes to the place of use of any of the water rights or the irrigated acres. We have modeled the proposed change and attached the modeling results. The modeling shows that impacts to the Snake River will be minimal. We have enclosed the necessary filing fee of \$750.00 and all other necessary attachments.

If you have any questions regarding these applications, do not hesitate to contact me.

Best Regards,

Luke H. Marchant
