Subject: Re: Request for Extension of Time Received for Permit 95-11411

Please consider this email as specific request to modify our extension to 5 years rather than the two years as previously stated. Thank you for your time and consideration.

Regards,
Leon Hardy

Mr. Hardy,
If you want me to modify your request from, I need you to specifically request what you want the Department to do.

Darla , It does make sense to go with a 5 year extension versus my initial request for 2 years . That way I have the time to get everything hooked up , running at capacity and will have time to get it all perfected. If you need me to explain the details remaining let me know, thankyou Leon Hardy

Subject: Request for Extension of Time Received for Permit 95-11411

April 01, 2015

Dear permit holders:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit. On this extension you have asked for 2 years.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years. You have already had the initial 5 years allowed under the permit. This extension is considered to

be your last extension request allowed under due diligence or good cause, and you could ask for up to 5 years on this extension request.

However, in order for me to modify your request for extension of time form from a 2 year extension to a 5 year extension, I need written request from you stating that you would like to have your extension request form modified to reflect a 5 year extension in lieu of the 2 years currently stated on the form. A reply to this email could be used as your written request to have IDWR modify your form. Please respond as soon as possible, and be as specific as you can in your request.

Once I receive your reply, I will be able to move forward with processing your request right away.

Sincerely,

Darla Block
