Dear Water Right Holder(s):

The Department acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records to reflect this change in ownership and has enclosed a computer-generated report for your records.

In the cover letter accompanying the Notice of Change in Water Right Ownership, it was stated that water right 33-91C was transferred and no longer active. This statement is correct. The ownership of this right was not updated. A refund of \$25 will be requested and Michael Best & Fredrich LLP should receive the warrant from the State Controller's Office within 10 days.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see § 42-222 and §42-223, Idaho Code.

Also note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right, to the Department. Notice of the change must be provided to the Department within 120 days of the change. Change reporting forms are available from any office of the Department, or at www.idwr.idaho.gov.

Thank you for your patience. If you have any questions concerning the enclosed information, please feel free to contact me at (208) 287-4942.

Sincerely,

Re: Notice of Change in Water Right Ownership

Dear Mr. Spackman:

We represent Craters of the Moon Farms LLC, and have enclosed the Notice of Change in Water Right Ownership form, transferring a number of water rights from Mays Land & Livestock, Inc. to my client.

The Notice of Change includes Water Right Nos. 33-91C and 33-91D. During the course of our due diligence we discovered some confusion in the record between these two water rights. It appears that a portion of the rights granted under Water Right No. 33-91C may have been transferred to a 3rd party and is no longer active. The rights of 33-91C with respect to the Mays Land & Livestock Property are now associated with the current Water Right No. 33-91D. The rights of the third party as may have previously existed are now believed to be renumbered as 33-91E.

As shown on the enclosed form, Craters of the Moon Farms LLC is filing for the transfer of water rights 33-91C and 33-91D so as to be clear about our receipt of all pertinent water rights.

Do not hesitate to call me directly at 608.257.7482 with any questions or concerns.

Sincerely,

MICHAEL BEST & FRIEDRICH LLP

Michael S. Green
