Re: Application for Permit- Request for more information

Dear Mr. Krueger,

The purpose of this letter is to request additional information related to the application for permit 63-34022 submitted on December 2, 2014. There are a few aspects of your application that need to be clarified before it can be processed.

First, in section 10a of your application you state that you are the owner of land at the point of diversion. According to Ada County tax lot data (9/24/14), the well is on land owned by the Department of Fish and Game. It also appears that the well is being used by other people. Could you please verify the ownership status of the land at the point of diversion? If the land is owned by the Fish and Game, please amend your response to sections 10a and 10c and explain your arrangement for using the well on the application for permit.

In section 9 of your application, could you please be more specific with your answer 'yes'? Are you confirming that there are other people who use the well? Please list who these people may be. Do you intend to use water from another source? Is the water for irrigation, gardening, landscaping, or all of the above?

Finally, the map you enclosed with the application outlines the entire 40-acre tract as the place of use. Based on Ada County tax lot information (9/24/14), it appears you own several parcels in that area. Which parcel are you proposing to develop this domestic use on? I will enclose an enhanced map of the parcels in the area for your referencing convenience.

I am returning a copy of the original application for amendment of a permit, marking the sections that need to be corrected. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov.

Please submit the requested information for the application to be processed. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to these matters.

Sincerely,

Danie Merriman
Water Resource Agent
