Re: Corrections to permit

Dear Applicants,

This purpose of this letter is to make another adjustment to the application for permit 3-10278 submitted on November 26, 2014.

Thank you for your prompt response to the last letter. In the last amended application, I failed to notice the error in the documentation in the place of use. While the map makes sense and is accurate based on our phone conversation on 02-18-15, I neglected to see the error in section 8 of the application for permit form. The application applies for 8 acres in the SENE corner of 10N05W35 when in reality approximately 3 acres are in the SENE corner and 5 acres are in the SWNW corner. This is an important differentiation for advertising purposes and will be helpful when the application gets to the permit stage.

In order to make up for the inconvenience, I have generated a new amended application with the acres assigned to the correct quarter quarters. Please look over this new form and confirm that the information is correct. If you find something that should be changed, please cross it out and correct it while including your initials. When you find the changes are acceptable, please sign on page two (2) and mail the entire form back to the Western Region office.

Please submit the requested information for the application to be processed. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Again, I am sorry for any inconvenience and thank you for your attention to these matters.
