CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This rental agreement does not authorize the construction of a well.
11. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
12. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.

MEMORANDUM

To: Water Right 37-8409

From: Clay Webster

Date: 3/30/2015

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The department received an application to rent 0.06 cfs and 4.6 af from the WSB to irrigate 1.3 acres in addition to the domestic exemption of 0.5 acres from Speck & Aanestad for Michael D. Parmelee, Trustee of the Michael D. Parmelee Trust of 2007. This water will be applied to the property located at Lot 3 Blk 1 of Buckhorn First Add. (109 N Hiawatha Dr. Hailey Idaho) Upon review, the correct cfs for the rental of the 1.3 acres would be 0.08 cfs.

AUTHORITY TO FILE: This application was signed by Michael D. Parmelee, according to taxlot information, the Michael D. Parmelee Trust of 2007 is the owner of the POU and POD.

WATER RIGHT VALIDITY: 37-8409 is being used to fulfill this rental. This water right was transferred and then placed into the water supply bank before ever being used at the current location. Therefore, the water right is not appurtenant to the property until it is removed from the bank and co-mingled with the rights at the current POU (37-22499, 37-21242, 37-20843 and 37-21240). See Lease Review Memorandum by Daniel Nelson dated 7/12/2011.

INJURY TO OTHER WATER RIGHTS: The water right and the rental PODs fall within the same $\frac{1}{4}$ $\frac{1}{4}$. They are both in the Hailey Zone of the WSB Interim Ground Water Rental Policy for the Wood River Valley. No injury is apparent.

ENLARGEMENT OF USE: According to the record 37-8409 overlaps 37-22499, 37-21242, 37-20843 and 37-21240. However, since this right was transferred to this POU and never used on this POU. This right is not considered overlapped with these rights until it is withdrawn from the WSB and then used with the other rights. Enlargement is not an issue at this time.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented right is subject to Water District # 37. Comments were requested from the region and watermaster via e-mail on 3/25/2015. The Regional Manager had no issue with this rental. As of today's date, I haven't received any reply from the watermaster.
