MEMORANDUM

Date: April 8, 2015
To: Transfer 79916 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Application filed to add a new well to be drilled as an authorized point of diversion for the City of Gooding's municipal groundwater rights, 37-4080 and 37-11221. The new well will be located near the northeast corner of the City of Gooding (within the SWNE of Section 32). As listed on the application and the cover letter that accompanied the application, the new well will be limited to a diversion rate of no more than 5.0 cfs. In addition, the filing fee that was paid for the transfer was based on the 5.0 cfs rather than the 7.05 cfs which is the total diversion rate for the two rights involved with the transfer. Therefore, a condition limiting the diversion at the new well to no more than 5.0 cfs should be incorporated into the transfer approval. The rights involved with the transfer allow for the diversion of water from within Water District 130, so water master comments will be solicited. The new well is located in a groundwater model cell that is adjacent to a model cell where five of the city's wells are located. Therefore a groundwater model analysis is not required.

- **Authority to File:**
The application is filed in the name of the City of Gooding, the current owner of the rights involved with the transfer.
- **Water Right Validity:**
The rights involved with the transfer were decreed in the SRBA in 2002 and were involved in an approved transfer (#78928) in 2014.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated. The application will be subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

MEMORANDUM

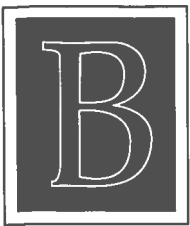

TO: Transfer # 79916 File

FROM: Corey Skinner

DATE: April 8, 2015

SUBJECT: Filing Fee

The filing fee, \$820.00, for this transfer is based on the total amount of water being transferred, 5.0 cfs. Note that this reflects a limit for the new well (see application and cover letter that accompanied the application). The transfer fee schedule for a transfer involving 4.01 – 5.0 cfs indicates that the filing fee is \$820.00.

Re: City of Gooding

Dear Allen:

Enclosed is an Application for Transfer – Points of Diversion and an Application for Amendment of Permit for water right 37-22850. The singular purpose of these applications is to add a well site in the SWNE Sec. 32, T. 5 S., R. 15 E. The maximum yield of this new well will not exceed 5 cfs, and therefore per your direction I am enclosing the fee corresponding to that amount, or \$820, plus the \$100 fee for the permit amendment application.

The addition of the proposed POD will have negligible hydrologic effect. And, the Department has recently conducted a thorough review of the City's existing rights as well as permit 37-22850. I am therefore requesting that the Department waive the advertising for both of these applications.

Cordially,

Charles G. Brockway, P.E.
