RE: Application for Permit 15-7405

Dear Applicant:

When applying for a permit to appropriate water greater than 5 cfs and/or more than 500 acre-feet, IDWR requires additional information to help evaluate the criteria found under Idaho Code 42-203A(5).

Idaho Code 42-203A(5) requires IDWR to evaluate the following criteria for application to appropriate water:

- The potential to reduce the quantity of water under existing water rights
- The sufficiency of the water supply for the proposed application
- The good faith nature of the application
- The adequacy of the application's financial resources
- The local public interest in the public water resource
- The conservation of the water resources in Idaho
- Impacts to the economy of the local area or watershed

To ensure that IDWR has sufficient information to evaluate the criteria, Rule 40.05 of the Water Appropriation Rules (IDAPA 37.03.08.040.05) requires water right applicants to submit additional information to IDWR in connection with their application. A copy of Water Appropriation Rules 40.05.c-g is attached to this letter.

Please submit the information required by Water Appropriation Rules 40.05.c-g to IDWR within 30 days. IDWR will hold your application until you have submitted the additional information. If you believe that a particular piece of information is not relevant to your application, please explain why. A complete response to Rule 40.05.f, information relative to Financial Resources, is not required if construction of your project will cost less than \$5000.00. Instead, simply state the project cost of your project. If you do not respond within 30 days, IDWR may void your application. If you need additional time to submit the required information, please submit a written request. IDWR can grant additional time "upon a showing of good cause.

Please feel free to contact this office if you have any questions.

Sincerely,

Sharla Cox
Administration Assistant

Application For Permit No. 15-7405

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the IDAHO ENTERPRISE on April 16 and 23, 2015. Protests to this application may be submitted for a period ending ten (10) days after the second publication (**May 4, 2015 at 5:00 P.M.**).

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,
