Re: Annual Reporting Cycle for Water Right 95-9323

Dear Fernan States Corp. and Kootenai Environmental Alliance:

This letter is to request an adjustment to Fernan States Corporation's annual reporting cycle. Water Right 95-9323 contains a condition which requires annual reporting requirements by October 15 of each year.

In order to conform to the annual reporting cycle held by other water users statewide, the Department requests that Fernan Estates adjust their reporting cycle to January 1 to December 31 of each year. Their data will need to be submitted to Idaho Department of Water Resources on or before January 15 following the reporting year. (*Please submit your next report by January 15, 2016.*) There is a \$25.00 report processing fee associated with each diversion required to be reported, per Idaho Code 42-701.

The form to be used for reporting purposes can be found on our website www.idwr.idaho.gov under: Forms, Water Measurement Forms, and "Measuring Device Method for Totalizing Flow Meters." We do not anticipate that this change will negatively impact the quality of the data.

Thank you,

Ashley Newbry
Associate Engineer
