Boise, Idaho 83720-0098

Dear Ms. Block:

Please excuse the tardiness of this letter as I had in mind that March 15 was the deadline to ask for a further extension on permit #95-9255. A number of events have occurred in the last four years that has consumed a large amount of time and resources. In this time I have lost both my parents as well as gone through a divorce. We have also experienced two separate instances of copper thieves stripping our existing center pivot of electrical wiring. However, it will be running again this summer and we have purchased a second used center pivot that we intend to set up as well, hence, the need for an extension and or permit.

Enclosed are pictures of the second pivot we have purchased along with control panel and low pressure-mister type of nozzles.

We appreciate your help and understanding in this matter. We are a long term agriculture family operating on our land for over 100 years and we intend to continue to do so. We have seen the benefits of irrigation and would like to expand.

Please contact me at the above address or telephone with any questions or concerns you may have. I look forward to hearing from you.

Most sincerely,
