RE: Water Appropriation Permit 96-9534

Request for Information

Dear Permit Holders:

In 2014 IDWR issued permit 96-9534 authorizing the development of a right to divert 0.09 cfs of water from Spring, tributary to Sinks, within NE1/4NE1/4NE1/4 of Section 24, Township 55 North, Range 03 West, B.M., for domestic, stockwater, and irrigation use.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that water has been put to beneficial use in accordance with the permit. For your convenience, I am enclosing a copy of permit(s) listed above.

In an attempt to expedite the licensing process, IDWR would like for you to provide the following information regarding your permit:

Point of Diversion Information:	At a minimum, please mark the location of the Spring on the provided map. If possible, Photographs of the spring and the point of diversion. If possible, GPS coordinates of spring location – latitude/longitude.	
---------------------------------	--	--

Please mail the map with the Spring location and other information to IDWR, C/O Danielle Favreau, to the address on at the top of this letter. If you would like, you could email an electronic copy of the map with the location clearly marked to Danielle.Favreau@idwr.idaho.gov.

Please provide the requested information by April 20, 2015.

If you have any questions, please contact me at 208-287-4800. Thank you for your attention to this matter.

Respectfully,

Danielle Favreau
