Matt,

As mentioned in our conversation earlier this day concerning Leroy and Karla Robinson's transfers. We discussed the transfer involving groundwater rights 45-14076, 45-13428, and surface water right 45-13463 which propose to create a permissible place of use for these rights and to change the point of diversion for the two groundwater rights 45-14076, and 45-13428. Additionally you submitted another transfer also involving surface water rights 45-13463 and 45-529 to change the point of diversion of these two rights. To help in the processing of these two transfers it is recommended that we remove water right 45-13463 from the second point of diversion transfer and change the point of diversion for water right 45-13463 in the first permissible place of use transfer. This will simplify the processing of these two transfers.

Please e-mail me back if you agree to these proposed changes.

Thanks,

Benny
