RE: Water Right Permit No. 15-07271

Dear Mr. Allen,

RECEIVED

MAR 17 2015

Department of Water Resources
Eastern Region

As part of the water right licensing process, I am required to compare your development of the water to how you were permitted to develop it. I found that you were permitted to develop a domestic use in the NENW of Section 10, T14S R35E, but instead developed it in the NWNW of the same Section. Please refer to the enclosed map for more information.

Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Therefore, before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

If you have any questions, please call me at (208) 525-7161.

Sincerely,

Cooper Fritz
Water Resources Agent
