Santa Barbara, CA 93101

Subject: Trinity Springs Water Rights

Dear Mr. Hecht:

I have received a copy of the executed storage contract with the U.S. Bureau of Reclamation regarding storage rights at Trinity Springs.

Along with the storage rights there are also natural flow water rights administered by the State of Idaho, these natural flow water rights are regulated by priority dates and flow amounts. The State of Idaho, Department of Water Resources, list six water rights associated with the former owner, HT Recovery, LLC. These water rights, 63-8206, 63-8207, 63-11051, 63-11053, 63-11439 and 63-27144 are administered by the Basin 63 Watermaster and will require measurement and reporting of daily diversions. This is very broad topic to cover in a letter and I would request that you contact me at your earliest convenience to discuss these requirements in further detail.

I can be reached at the Water District No. 63 office at (208) 908-5480. Please leave a message if I am out and I will return your call.

Thank you for your attention to this matter.

Sincerely,

Rex R. Barrie
Boise River Watermaster
