Subject: Re: Permit 63-33206

Hi Dan,

I spoke with Joe last night about our conversation regarding the completion status of our water rights. Again, I am sorry for our misunderstanding. Please put the \$50 that we paid towards the five year extension. We will get the areas that we finished getting water to planted and will then file the completion papers. Please let me know if you need anything else from me.

Thank you,
Kymber Jenkins

Dear Mr. and Ms. Jenkins;

I have attached a letter that I sent to you today by regular mail. This letter discusses your water right permit 63-33206. I wanted to send this to you by email, because there is a time limit for submitting the information needed in several of the steps. Please reply promptly. Please contact me if you would like to talk about this letter, the filing or what we can do to meet your needs. Don't hesitate to call or email me if you have questions.

Thank you.

Daniel Nelson
