John,

As we discussed on the phone, I've attached a copy of the preliminary order denying your request for extension of time. The cover letter and some explanatory information are also included. A hardcopy of these items will arrive in the mail in a day or two. The order is based on the provisions of Idaho Code § 42-204. Here is a link to the text: <http://legislature.idaho.gov/idstat/Title42/T42CH2SECT42-204.htm>. Please see subsection 6.

I've also attached a form for submitting proof of beneficial use for the portion of your permit that you have been able to develop.

Since you were not able to develop the proposed ground water use during the authorized development period, it would have to be authorized by another permit. Application forms are available at <http://idwr.idaho.gov/RulesStatutesForms/WaterRights/WaterRightForms.htm>.

Finally, if you can email me your question about your drilling permits, I will forward it to Tom Neace, the manager of IDWR's Ground Water Protection Section, which issues the drilling permits.

Sincerely,

Shelley Keen
